## Growing the Greenbelt – Consultation 2008

February 21, 2008.

His Worship Mayor Fred Eisenberger  
City of Hamilton\*  
City Hall, 71 Main Street West  
Hamilton, ON L8P 4Y5

Dear Mayor Eisenberger:

As part of a provincial process to consider applications by regional, county and single-tier governments to grow the Greenbelt, a set of draft criteria have been developed by which to consider municipal requests to expand the existing Greater Golden Horseshoe Greenbelt.

Please find enclosed a copy of *Growing the Greenbelt – Consultation 2008*, which outlines the draft criteria.

We want to hear from you on the proposed criteria for considering Greenbelt expansions. Your input will help build a clear approach for considering expansions to the Greenbelt.

We will be advising your staff of workshops to be held in late March and early April at locations across the Greater Golden Horseshoe. These sessions will provide the opportunity to further discuss the criteria.

The draft criteria will also be posted for review and comment on the Environmental Bill of Rights Environmental Registry for 60 days, starting February 21, 2008. Comments must be received by April 30, 2008.

The criteria will then be refined based on feedback received from municipalities, conservation authorities, Aboriginal communities, stakeholders and the public.

*Growing the Greenbelt – Consultation 2008*, and other information about the Greenbelt, is available online at [www.greenbelt.ontario.ca](http://www.greenbelt.ontario.ca).

Sincerely yours,

A handwritten signature in black ink, appearing to read "Jim Watson".

Jim Watson, MPP  
Minister

cc. Glen Peace, City Manager  
Tim McCabe, General Manager, Planning and Economic Development

Sophia Aggelonitis, MPP Hamilton Mountain  
Ted McMeekin, MPP Ancaster-Dundas-Flamborough-Westdale

# Growing the *greenbelt*

FEBRUARY 2008 | *Consultation*

## INTRODUCTION

Ontarians have come to cherish the Greenbelt since it was created in February 2005. It protects 1.8 million acres of environmentally sensitive and agricultural land around the Greater Golden Horseshoe. Moving forward, growing the Greenbelt can improve Ontarians' quality of life.

The Ministry of Municipal Affairs and Housing has developed some draft criteria for public consideration in order to accommodate potential requests to grow the Greenbelt.

This booklet provides some background information about the Greenbelt and its creation, and outlines draft criteria that could be used by the Minister of Municipal Affairs and Housing to consider municipal requests to expand the existing Greenbelt. Comments and suggestions on these draft criteria are welcome.

## BACKGROUND

Providing agricultural and environmental protection, the Greenbelt also contains important natural resources and supports a wide range of recreational, tourism and cultural opportunities.

The Greenbelt helps protect the water we drink and the air we breathe. It offers greenspaces to enjoy hiking and skiing. It preserves farmland so that future generations can enjoy food that is grown and raised close to home.

The Greenbelt includes the Oak Ridges Moraine, the Niagara Escarpment and land that is known as "Protected Countryside" and lies at the heart of the Greater Golden Horseshoe.

The Greenbelt is the cornerstone of the Greater Golden Horseshoe Growth Plan, Ontario's over-arching strategy for managing growth for the area. The Greenbelt Plan identifies where major urban growth cannot take place. The Growth Plan directs most growth to existing urban areas, away from environmentally sensitive and prime agricultural areas.

## THE GREENBELT ACT AND PLAN

The Greenbelt Plan and Greenbelt boundary were established under the Greenbelt Act, 2005. The act allows only the Minister of Municipal Affairs and Housing to propose amendments to the Plan. Only Ontario Cabinet can approve those proposals.

Decisions on planning applications must conform to the Greenbelt Plan. Municipalities are also required to bring their planning documents (e.g. official plans) into conformity with the Plan.

The act requires a comprehensive policy review of the Greenbelt Plan every 10 years. The review must be co-ordinated with the reviews of the Oak Ridges Moraine Conservation Plan and the Niagara Escarpment Plan. The first 10-year review is to take place by 2015.

The act also required the government to create the Greenbelt Council, an advisory body to the Minister on Greenbelt matters. The Greenbelt Council provides advice to the Minister on both the 10-year review and any proposed amendments to the Plan.

This consultation on the draft criteria is not intended to replace the 10-year review, or limit the ability of the Minister to propose any other amendments to the Plan. Amendments to the Plan would follow the legislative process outlined in the act.

## GREENBELT VISION

The Greenbelt is a broad band of permanently protected land which:

- Protects against the loss and fragmentation of the agricultural land base and supports agriculture as the predominant land use;
- Gives permanent protection to the natural heritage and water resource systems that sustain ecological and human health and that form the environmental framework around which major urbanization in south-central Ontario will be organized; and

- Provides for a diverse range of economic and social activities associated with rural communities, agriculture, tourism, recreation and resource uses.

## GREENBELT GOALS

To enhance our urban and rural areas and overall quality of life by promoting the following matters within the Protected Countryside:

1. Agricultural protection
2. Environmental protection
3. Culture, recreation and tourism
4. Settlement areas
5. Infrastructure and natural resources

Please refer to the Greenbelt Plan for more information on the Greenbelt's goals.

## GREENBELT FACTS

- The Greenbelt includes about 1 million acres of protected land in addition to the land protected by the Niagara Escarpment Plan and the Oak Ridges Moraine Plan. The total area of protected land in the Golden Horseshoe is now 1.8 million acres – an area larger than Prince Edward Island.
- The Greenbelt extends 325 kilometres from the eastern end of the Oak Ridges Moraine near Rice Lake, to the Niagara River in the west. It is about 80 kilometres wide at its widest point from the mouth of the Rouge River to the northern tip of Durham Region.
- The Greenbelt's Protected Countryside natural heritage system is about 535,000 acres in land area and provides full protection for about three-quarters of the lakes, wetlands and forests in the Greenbelt.

- The Greenbelt brings under the Plan the headwaters of all major watersheds in the western Greater Toronto Area that were not protected by the Niagara Escarpment or Oak Ridges Moraine plans.
- The Greenbelt permanently protects about 100,000 acres of Niagara Peninsula tender fruit and grape specialty crop areas and the entire Holland Marsh specialty crop area of over 15,000 acres, located in York Region and Simcoe County.

# Draft Expansion Criteria

## INTRODUCTION TO DRAFT CRITERIA

The Ministry of Municipal Affairs and Housing, working in partnership with other provincial ministries, has developed draft criteria to consider municipal requests to grow the Greenbelt. The ministry is looking for feedback on the following six criteria.

### 1. *Municipal Request*

Requests for growing the Greenbelt from regional, county and single-tier municipal governments will be considered.

A municipality requesting to expand the Greenbelt should address the following questions:

- Is the request supported by regional, county or single-tier municipal council?
- Does the request identify the geographic area within the municipality to be considered for addition to the Greenbelt?
- What specific measures has council taken to engage the public and key stakeholder organizations about growing the Greenbelt in its municipality?
- What specific measures has council taken to engage Aboriginal communities about growing the Greenbelt in its municipality?
- Is there consensus among a region or county and its lower-tiers affected by the proposal? Is the request supported by council resolutions?
- Has the municipality provided a supporting rationale as to how the criteria have been met?

### 2. *Embraces Greenbelt Purpose*

The Greenbelt establishes its main purpose through the vision and goals outlined on pages 2 and 3. Proposed expansions to the Greenbelt must recognize its key role in guiding land use planning in the Greater Golden Horseshoe and seek to maintain this purpose.

- Does the proposed expansion protect environmentally sensitive and agricultural lands while meeting the needs of growing communities?
- Is it consistent with the vision and goals of the Greenbelt Plan?

### 3. *Additions to the Greenbelt*

Greenbelt additions should be logical extensions to its existing area. New lands to be added should be easily connected and not create isolated patches. Further, the Greenbelt Act, 2005 provides that the Greenbelt's area cannot be reduced through an amendment.

- Is the proposed expansion next to the existing Greenbelt?
- Does the proposed expansion consist only of additions to the Greenbelt and not include deletions?

#### 4. *Connections to Greenbelt Systems*

The Protected Countryside was built using a provincial-scale 'systems approach' described in detail on page 6. Requests to grow the Greenbelt should connect to and build upon this framework that established the original Greenbelt.

- Is the proposed expansion based on a provincial-scale systems approach that formed the original Greenbelt (as opposed to local or regional scales)?
- Does the proposed expansion build upon the Greenbelt's natural heritage system?
- Does the proposed expansion build upon the Greenbelt's agricultural system?
- Does the proposed expansion build upon the Greenbelt's water resource system?

#### 5. *Complement Greater Golden Horseshoe Growth Plan*

The Growth Plan sets a framework for managing growth and revitalizing existing urban communities in the Greater Golden Horseshoe. It also steers growth away from environmentally sensitive and prime agricultural areas. The Greenbelt Plan identifies where major urban growth cannot take place. To implement the Growth Plan's policies, municipalities are required to update their official plans by June 2009.

- Does the proposed expansion complement the Greater Golden Horseshoe Growth Plan?
- Will affected municipalities be able to bring their official plans into conformity with the Growth Plan if the proposed Greenbelt expansion occurs?

#### 6. *Timing and Relationship to Other Provincial Initiatives*

There are a number of provincial initiatives affecting the Greater Golden Horseshoe including broader transportation/transit planning, protection of water resources and planning for future growth.

Does the request for growing the Greenbelt complement and support these ongoing provincial initiatives? (E.g. Does it allow for the completion of Source Protection Plans under the Clean Water Act, 2006?)

## BUILDING THE GREENBELT BY LAYERS

The process of building the Greenbelt in 2004/05 involved extensive consultation and collaboration. It was led by the Greenbelt Task Force, an advisory group that conducted public meetings and reported back to the Minister of Municipal Affairs and Housing in August 2004. The Greenbelt Plan was drafted based on the Task Force's recommendations and advice. For more information on those recommendations, please review the Task Force's report "Toward a Golden Horseshoe Greenbelt" at [www.mah.gov.on.ca/GreenbeltTaskForce](http://www.mah.gov.on.ca/GreenbeltTaskForce).

The provincial Growth Plan for the Greater Golden Horseshoe was developed at the same time as the Greenbelt Plan in order to consider the amount of land required to meet the needs of growing communities.

### *The Greenbelt Plan*

The Oak Ridges Moraine Plan and Niagara Escarpment Plan form the backbone of the Greenbelt. The Greenbelt's natural heritage system includes and builds on the natural heritage systems in the moraine and the escarpment.

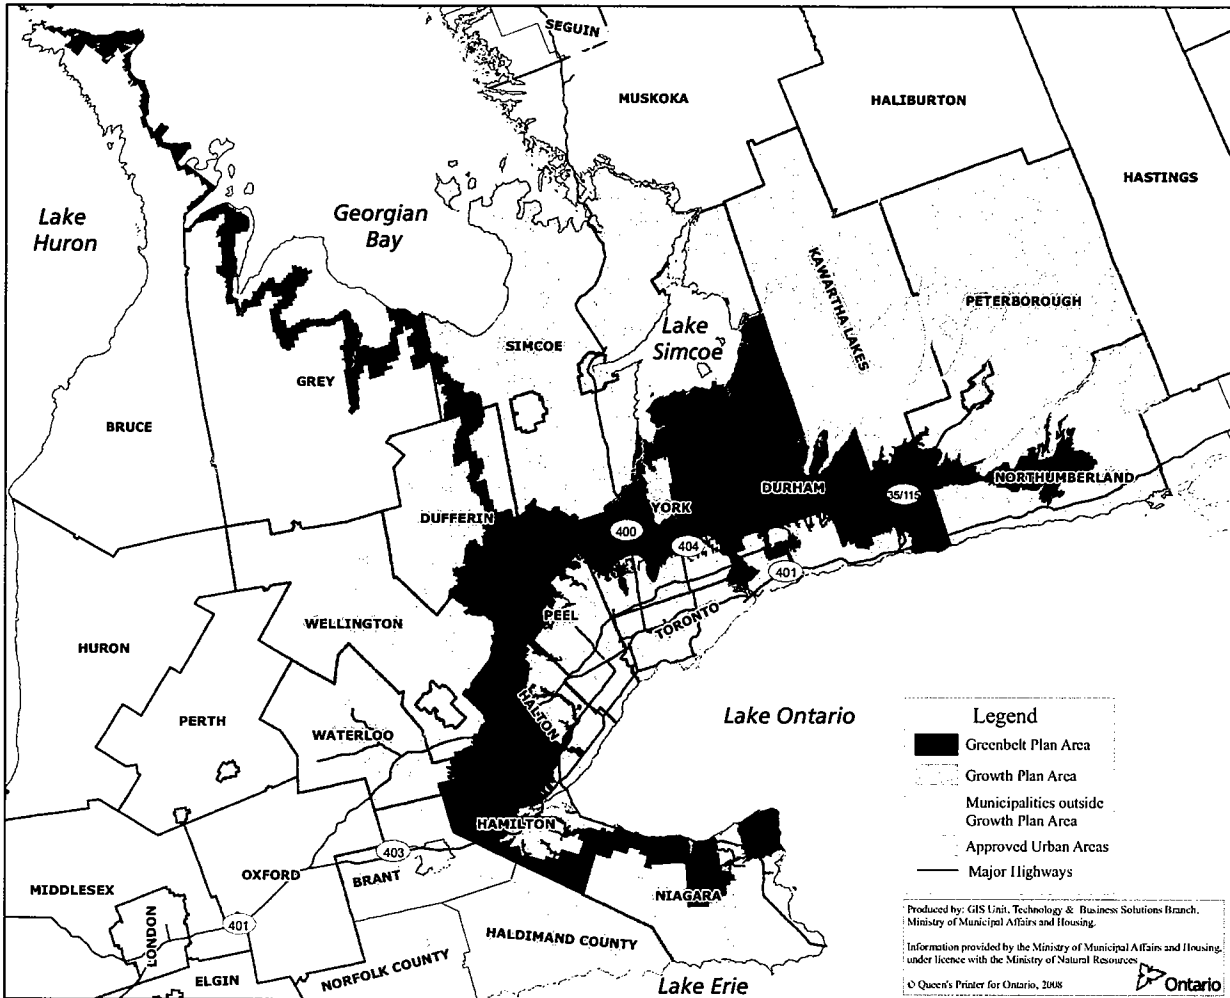

The final Greenbelt boundary was determined by identifying a natural heritage system and defining an agricultural system. The government also considered the amount of land required to accommodate anticipated growth. Together, these components form the Protected Countryside of the Greenbelt.

The natural heritage system identified major core areas containing high concentrations of natural features and linking areas that ecologically connect the core areas. Major valley corridors of rivers flowing from the Oak Ridges Moraine and the Niagara Escarpment also provide links from the Greenbelt to Lake Ontario.

The agricultural system was identified based on a number of factors including the Greenbelt Land Evaluation Area Review (LEAR) study, the existing pattern of agriculturally protected lands set out in municipal official plans and a consideration of projected future growth patterns. The LEAR method uses a scoring system and considers a number of potential factors such as soils, climate, productivity and land fragmentation. Studies were also done to identify two Specialty Crop Areas: the Niagara Peninsula tender fruit and grape area and the Holland Marsh.

# Greater Golden Horseshoe

### *Comments and Feedback*

We want to hear from you on the proposed criteria for considering Greenbelt expansions. Your input will help build a clear approach for considering expansions to the Greenbelt.
