**Subject:** RE: Concession Street BIA  
Alexandra:

I would like to ask for delegation status at the Planning & Economic Development Committee/Advisory Committee meeting of March 20 2007.

There is a report that is to be submitted that is of concern to me, however while I am not privy to the contents at this time, I believe that the Concession Street BIA through a request to the City, is proposing to put into place a new Board of Management. I feel that the process that took place to bring this recommendation forward, was not in keeping with the privileges extended to the members of the BIA.

What is the process required to allow myself, (or my representative), and those members of the BIA that feel they have been denied the right to nominate in accordance with the municipal act, (or their representatives), to speak to publically to the Committee.

Thanks

Mike Flanigan
