**Amendment No. 164**

**to the**

**Official Plan for the Former City of Stoney Creek**

The following text, together with Schedule "A" [Schedule "A3-2", Nash Neighbourhood Secondary Plan] and Schedule "B" [Schedule "A3-3", Nash Neighbourhood Road Classification Plan], attached hereto, constitute Official Plan Amendment No. 164.

**Purpose:**

The purpose of this Amendment is to revise various land use designations on the subject lands in order to permit a range of residential unit types and tenures, and identify the limits of environmental features including the Felkers Falls Environmentally Significant Area, Eramosa Embankment, Felkers Creek vegetative regeneration area, and the easterly hedgerow, together with their associated buffer areas, in order to reflect the results of more recent environmental studies, particularly focusing on the subject lands.

**Location:**

The lands affected by this Amendment are located on the north side of Mud Street, east of Felkers Creek, west of the un-opened Isaac Brock road allowance, and south of the Niagara Escarpment brow.

**Basis:**

- The revised limits of the "Environmentally Significant Area", "Open Space", and "Storm Water Management" designations are the result of more detailed, site-specific field investigation than was initially undertaken as part of the identification of the original designation during the preparation of the Nash Neighbourhood Plan, that these amendments fulfil the "Open Space and Environmental Features" objectives of the plan by ensuring the preservation and enhancement of significant environmental features, including Environmentally Significant Areas.
- The range of residential types and tenures permitted in the revised boundaries of the "Medium Density 1" and "Medium-High Density" designations, which will include apartment buildings, block, street, and stacked block townhouses, and single-detached dwellings, will assist in ensuring that the Residential objectives of the Nash Neighbourhood Secondary Plan will continue to be met. Said range of residential uses will be compatible with adjacent development, which essentially consists of open space to the north, east, and west.

### **Actual Changes:**

### **Map Changes:**

1. Schedule "A3-2", Nash Neighbourhood Secondary Plan, be revised by re-designating portions of the subject lands from:
  - a) "Medium-High Density" to "Open Space";
  - b) "Medium Density 1" to "Medium-High Density";
  - c) "Medium Density 1" and "Environmentally Significant Area" to "Stormwater Pond";
  - d) "Medium Density 1" to "Environmentally Significant Area";
  - e) "Medium Density 1" and "Environmentally Significant Area" to "Open Space";
  - f) "Stormwater Pond" to "Medium Density 1"; and,
  - g) "Open Space" to "Medium-High Density";as shown on the attached Schedule "A" to this Amendment.
2. Schedule "A3-3", Nash Neighbourhood Road Classification Plan, be revised by including road classifications for the subject lands, as shown on the attached Schedule "B".

### **Text Changes:**

3. Subsection 13.3.18.12 Environment, is amended by adding "*Except for the lands to be occupied by a public road in proximity to Mud Street West,*" at the beginning of the final sentence of Subsection 13.3.18.12 g), so that the sentence reads:

"Except for the lands to be occupied by a public road in proximity to Mud Street West, a minimum 35 metre open space buffer adjacent to Felkers Creek, as identified on Schedule "A3-2", is required to facilitate creek restoration works and terrestrial rehabilitation."

### **Implementation:**

An implementing Zoning By-law Amendment and Plan of Subdivision will give effect to this Amendment.

This is Schedule "1" to By-law No. 11-090, passed on the 23<sup>rd</sup> day of March, 2011.
