# Urban Hamilton Official Plan Amendment No. 44

The following text constitutes Official Plan Amendment 44 to the Urban Hamilton Official Plan.

#### 1.0 <u>Purpose and Effect</u>:

The purpose and effect of this Amendment is to reflect previous Council approved amendments to the Ancaster Official Plan and the Meadowlands Neighbourhood IV Secondary Plan, being OPA No. 132, under By-law No. 11-013, and to establish a Site Specific Policy Area to permit the additional built forms of townhouses, with a minimum density of 50 units per hectare, for the lands known as 1169 Garner Road East (Ancaster).

#### 2.0 Location:

The lands affected by this Amendment are known municipally as 1169 Garner Road East, in the former Town of Ancaster.

#### 3.0 <u>Basis</u>:

The basis for permitting this Amendment is as follows:

- The proposal is consistent with the Provincial Policy Statement.
- The proposal conforms to the Growth Plan for the Greater Golden Horseshoe.
- The criteria of Area Specific Policy Area E of the Meadowlands Neighbourhood IV Secondary Plan have been met, since an Environmental Impact Statement and Storm Water Management Plan have been completed. Thus, in accordance with the provisions of Area Specific Policy -Area E, development may be permitted to proceed.
- The proposed amendment, save and except for the change in density, reflects previous Council approved amendments to the Ancaster Official Plan and the Meadowlands Neighbourhood IV Secondary Plan, being OPA No. 132, under By-law No. 11-013, approved on January 12<sup>th</sup> 2011.

- The proposed amendment for a reduction in density from the minimum 60 units per net residential hectare to 50 units per net residential hectare is supportable as it is technical in nature due to the proposed built forms and the irregular lot shape and size, while also maintaining a functional design and infrastructure for the site.
- The proposed amendment for the additional built form of townhouses is supportable as it is a Medium Density Built form and appropriate at this location, where full municipal services and infrastructure are available.
