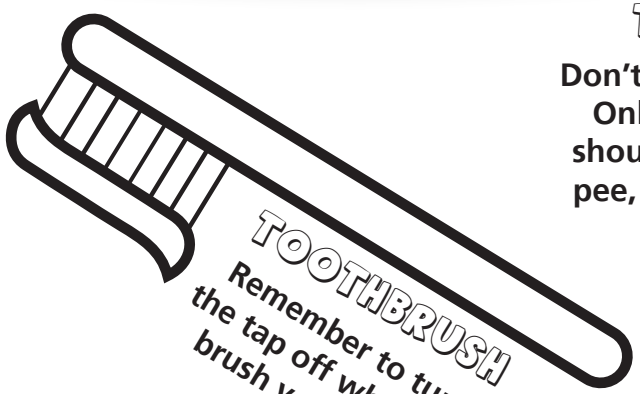
Be a Water Saver!

Did you know that out of all of the water on our planet, only 1% is available for us to use? You can help protect our water sources by following these water-saving tips!

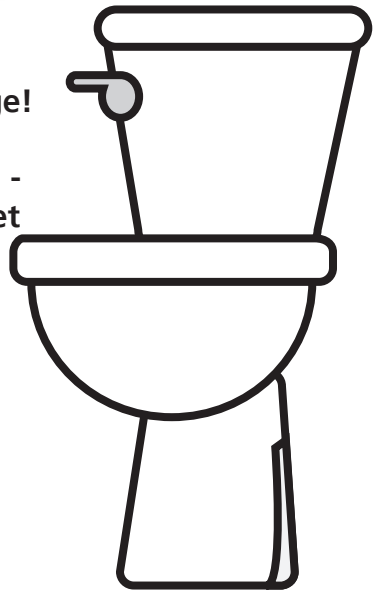


TOOTHBRUSH

Remember to turn the tap off while you brush your teeth!

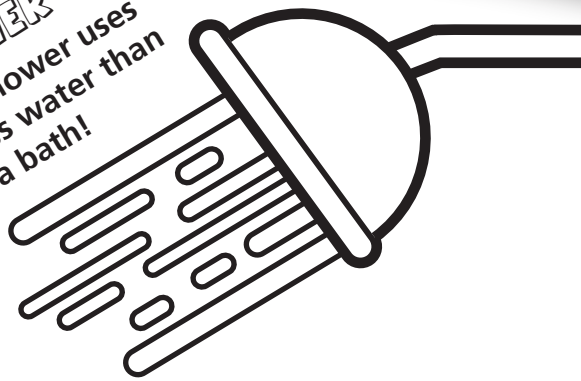
TOILET

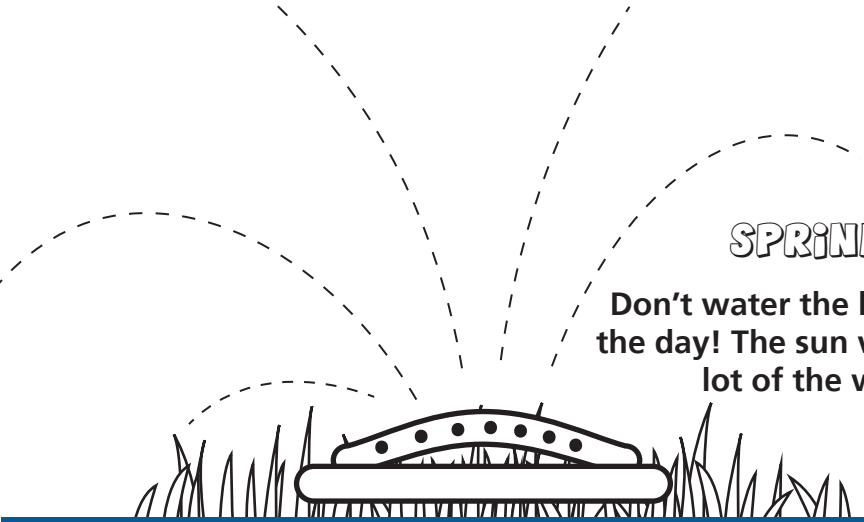
Don't flush garbage! Only the the 3Ps should be flushed - pee, poo and toilet paper!



SHOWER

A short shower uses much less water than a bath!





SPRINKLER

Don't water the lawn during the day! The sun will dry up a lot of the water.

WASHING MACHINE

Only wash your clothes when there's a full load!

Where Does Wastewater Go?

Did you know that all of that dirty water that goes down your drains has to end up somewhere? The sewer system takes the dirty water to be cleaned before going into Hamilton Harbour!

Drip the Water Drop!

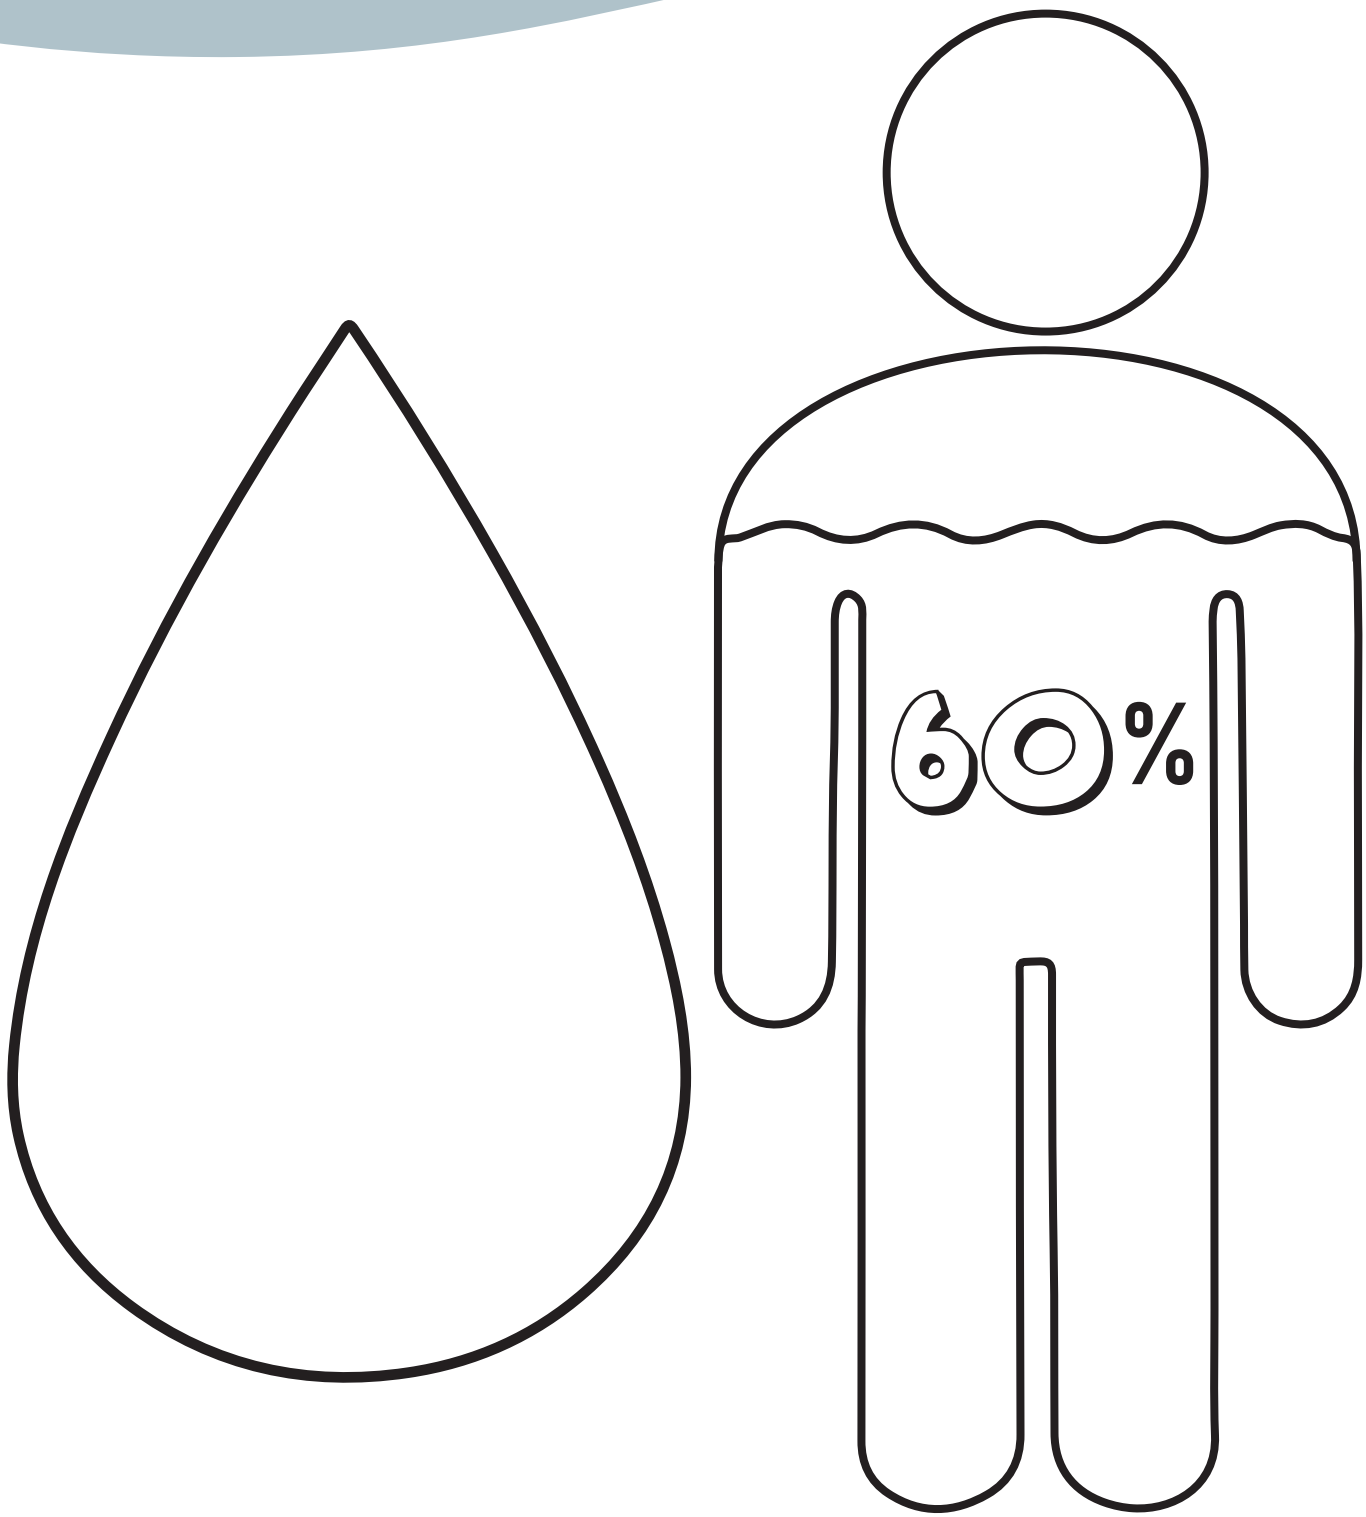
Say hello to Drip the Water Drop! Drip lives in Lake Ontario, one of the biggest freshwater lakes in the world and where Hamilton draws drinking water from. Drip loves teaching kids like you about water!

DRIP THE WATER DROP

Did you know that water can also be called "H_2O" because water is made of hydrogen and oxygen? Can you find the letters H and O within Drip? HINT: The letter O is really big!

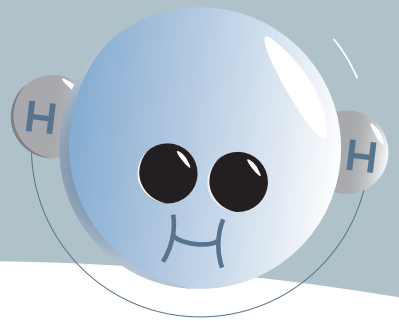
Water is Life

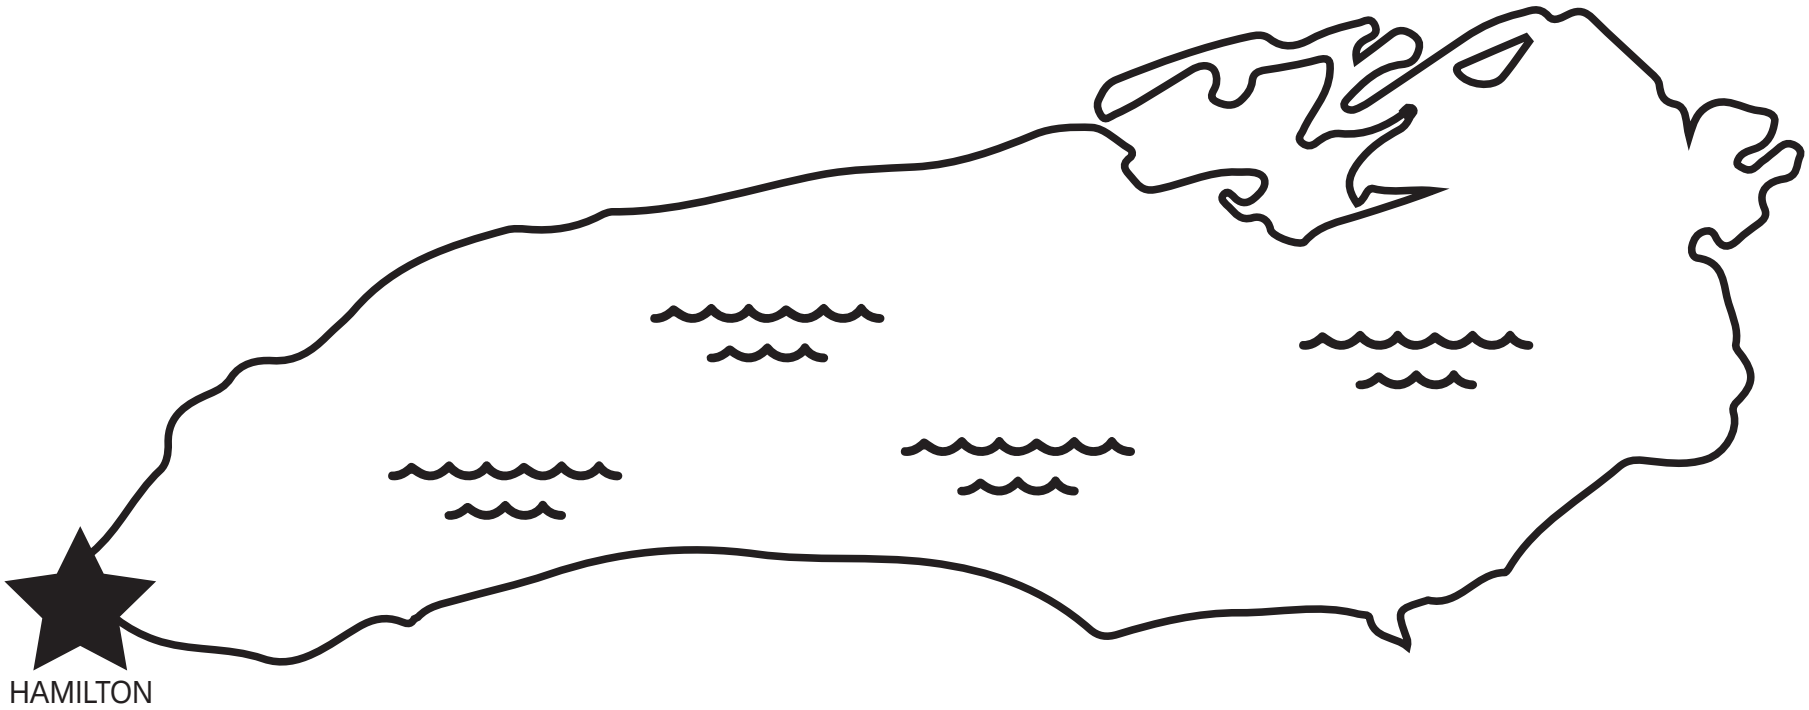
Did you know that without water there would be no life on Earth? Just like we need to eat food and breathe air we need water to live. Over half of your body is water so it's important to drink lots!



Where Does Your Tap Water Come From?

Have you ever thought about where the water from your tap comes from? It goes on a long journey through pipes, pumps and even a water treatment plant to be cleaned before it gets to your tap!





LAKE ONTARIO
