Overview of Behaviour Management Procedure

City of Hamilton, Recreation Division

All children and youth attending recreation programs are expected to behave in a manner which ensures their own safety and the safety of other participants, staff and volunteers in the program.

Staff will be responsible to communicate behavioural expectations, encourage appropriate behaviours and to use group management techniques to create an environment which prevents behaviours from happening. Parents will be notified of any behaviour that affects their camper or others from full participation.

Dangerous Behaviours Which Require Intervention

Dangerous behaviours include those which endanger the health and safety of the participant, other participants, members of the public, or staff, including but not limited to, aggression towards others, destruction of property, fleeing or hiding, or refusing to follow the direction of staff.

Parents, caregivers, and program supervisors will be made aware of these behaviours immediately, and could result in the removal from the public and only return when accommodations or planning is complete to ensure a safe return.

The City of Hamilton, Recreation Division, does not utilize physical restraint as a method of behaviour management.

Acknowledgement

I, _____, certify by way of signature that I understand the outlined behaviour management process, and will comply with expectations set for parents/guardians
