

COMMUNICATION UPDATE

TO:	Mayor and Members City Council
DATE:	October 2, 2023
SUBJECT:	Pier 4 Park – Tugboat Closure (ES23014) (Ward 2)
WARD(S) AFFECTED:	Ward 2
SUBMITTED BY:	Cynthia Graham Director, Environmental Services Public Works Department
SIGNATURE:	

This update is to inform Council and the community about the upcoming closure of the tugboat play structure at Pier 4 Park.

General Overview

The Pier 4 Park tugboat play structure has reached the end of its life cycle and requires refurbishment. Recognizing the tugboat is an iconic feature of the park; Staff will be closing the structure the week of October 2, 2023, to undertake destructive structural assessments. These assessments will inform the design for improvements to the tugboat, a new playground, and a new spray pad to be constructed in 2024.

This assessment will require the tugboat and the “junior” (18-months to 5-year-olds) playground to be closed to the public until the new playground is completed in 2024. The “senior” (5 to 12-year-olds) playground and spray pad will remain open to the public until construction begins in 2024.
