Complaints & Service Requests by Week 2024

Weekly Action Tracker

The Weekly Action Tracker includes all complaints and service requests received by Housing Focused Street Outreach (HFSO) regarding potential encampments that are new and/or in need of a Protocol compliance assessment. Occasionally, after a site has been designated by staff as cleared, different individual(s) may move into the same location and erect a new tent. To maintain clarity and ensure individuals are given an opportunity to be informed of the Encampment Protocol, any time new tents are discovered in an area that has been previously cleared, the process will restart with HFSO attending to engage. All sites that have previously met compliance will be identified as a 'new' site when a tent begins to occupy a non-compliant space, with the exception of previously escalated sites on private property. Once a private property owner has been notified of the process, they become responsible for contacting the appropriate enforcement body.

Active Sites Tracker

The Active Sites Tracker will maintain a log of all non-compliant sites (not including those in the Weekly Action Tracker) with complaints and/or service requests that are presently unresolved (i.e. enforcement, determining property ownership and/or cleaning of site is in progress). Sites may remain active after enforcement due to unique or acute circumstances present at a particular site, staffing challenges, and/or delays as a result of lengthy voluntary compliance follow-ups. The number of individuals staying at any particular site can change quickly, and as a result the information in the chart may be outdated since the last noted status update.
