## **SITE PLAN SECURITIES**

For development proposals approved under Section 41 of the *Planning Act*, the City requires the posting of performance securities, using the City's Letter of Credit Policy or Surety Bond Policy, to be held against the completion of exterior site development works (i.e. Landscaping and Engineering).

An example of an Irrevocable Letter of Credit is attached as SCHEDULE 1.

There are two alternatives for calculating the amount of the required site plan securities:

### **Detailed Cost Estimates**

Complete an itemized cost estimate for 100% of the cost of the exterior works as per the Guides for Estimating Security Requirements for Engineering and Landscaping (see SCHEDULE 2 and SCHEDULE 3).

The applicant is to submit the cost estimates for review and approval by the Planning and Economic Development Department. Securities will be required in the amount of 75% of the approved cost of the works.

### **Lump Sum Payment**

The amount of the site plan security is calculated based on the area and street frontage, and the type of land use. The following formulas shall be used for calculating the value of the required security:

For new development, the amount of the security shall be based on the following, which may or may not represent 75% of the estimated cost of exterior site works, but in no case shall the amount be less than \$87,440:

Residential: \$131,165 per hectare + \$1,510 per metre frontage  
Industrial: \$43,725 per hectare + \$510 per metre frontage  
Institutional: \$52,480 per hectare + \$1,140 per metre frontage  
Commercial: \$131,165 per hectare + \$1,140 per metre frontage

For additions, alterations or additional buildings on developed sites, the amount of the security shall be based on the following, which may or may not represent 75% of the total cost of all site development works, but in no case shall the amount be less than \$43,725:

Residential: \$66,210 per hectare + \$765 per metre frontage  
Industrial: \$22,495 per hectare + \$265 per metre frontage  
Institutional: \$26,245 per hectare + \$640 per metre frontage  
Commercial: \$66,210 per hectare + \$640 per metre frontage

## **SECURITY REDUCTIONS / RELEASE RELATED TO ON-SITE WORKS**

After satisfactory completion of all on-site works and receipt of all required certifications, the total amount of the security held by the City shall be released, except for landscaping which shall be held until June following the end of the first growing season.

- a. Reductions of security held under Site Plan Agreements are permitted to an amount equal to the total value of the works outstanding, but not less than 10% of the total value of the works required under the Agreement.
- b. Security reductions / releases are dealt with on a request basis.
- c. An administration fee \$400 (+HST) is required for each security reduction request.
- d. Reduction / release requests are reviewed and processed by the Growth Management Division upon the production by the Applicant, at the Applicant's sole expense, of an Engineer's Certificate, satisfactory to the Senior Director Growth Management, which indicates:
  - i) a description of what works have been completed;
  - ii) the percentage of the total value of the works under the Site Plan Agreement that have been completed to date; and,
  - iii) that the amount of security remaining with the City is sufficient to cover the remainder of the work required under the Site Plan Agreement.
- e. To request a reduction / release of securities, contact the Growth Management Division at [gmlotgrading@hamilton.ca](mailto:gmlotgrading@hamilton.ca).
