Hello [REDACTED]

Is there something you would wish to share with us at this time, to make sure we include it in our Archaeology Stage 1 report?

We will otherwise keep you posted.

Thank you for the wishes and please accept ours of best wishes for Christmas Holidays, too!:) )

Hello Margaret,

As the [REDACTED] has some archaeological site close to the study area we are for sure interested in receiving those reports as well of being informed about any monitoring opportunity.

Best regards and best wishes for the Christmas Holidays.

Hello,

You're welcome. We are still continuing with the Archaeology Stage 1 component for the study, so we don't have a report, yet. Once completed we can make that available, if you like?

Thank you,

**To:** [REDACTED]  
**Cc:** [REDACTED]  
**Subject:** Follow up on Notices of PIC sent re City of Hamilton's AEGD TMP Update and Barton and Fifty Road EA

**CAUTION:** External email. Please do not click on links/attachments unless you know the content is genuine and safe.

Hello,

We trust that this message finds you well and that you are the correct contacts when following up on mail outs/contacting the [REDACTED]

We are reaching out to you on two projects in the City of Hamilton (one is new and one with a long break since last contact).

I left a long bilingual voice mail with you, [REDACTED], this morning asking for any comments/feedback and contact, if desired.

Apologies – I forgot that French may be preferred and had to think on my feet with my rusty French, followed by English...

We are leading two projects which are following the Municipal Class Environmental Assessment (EA) process in Ontario, as follows:

1. Airport Employment Growth District (AEGD) Transportation Master Plan, which is fulfilling Phases 1 & 2 of the EA process.
2. Barton and Fifty Road EA – Phases 3 & 4 of the EA process, and the CN Rail crossing on Fifty Road which is fulfilling Phases 1 & 2 of the EA process.

RE No. 1, the AEGD TMP Notice of study Commencement and PIC was issued a few weeks ago and are hoping that if you have any questions or comments for us, you would let us know, please.

- Please note that Archaeology Stage 1 has been completed for this study area and recommends Stage 2, which will be carried out as part of subsequent studies (typically done during detailed design when staging of construction and precise impacts are known, not the EA process).
- No Natural Heritage field work or Archaeology field work was completed as part of this study, both of which will be recommended for subsequent stages of studies/development.
- If you are interested in reviewing the PIC materials please following the link:  
<https://engage.hamilton.ca/aegd-tmp>.

RE No. 2 Barton and Fifty Road EA we are sending Notices of PIC now – e-mails have gone out today and hard copy mail is on its way.

This is not a new project, however, it's been a few years since we have started, and wanted to reach out to you again.

- Please note that the Stage 1 Archaeology Report has been completed for this study area, and recommends Stage 2, which will be recommended/carried out, as per above, during detailed design stage.
- The PIC with is coming on June 17, 2021 with recommended alternatives that are the result of field work analysis and evaluation. It will also be recorded, and you can find any relevant materials, including a PIC presentation recording after the event, here: <https://engage.hamilton.ca/bartonfiftyea>
- Natural Heritage field work has been completed for this study and a Natural Heritage Draft Report is available for review, if desired.

Please let us know if you have any questions or comments on any of the above.

Thank you,

Hi Margaret,

Thank you for your email. Could you please send us both stage 1 reports so we can have them on file?

Other than that, since no archaeological fieldwork is required until the projects go further, we don't have any comments at this point. Please keep us updated about both projects and about any new project or archaeological studies and fieldwork.

Best regards,

July 2, 2021

Dear [REDACTED]:

**Subject: Barton and Fifty Road Improvements Phases 3 and 4 Municipal Class Environmental Assessment (EA).**

We trust that you have already received a Notice of June 17, 2021 Public Information Centre (PIC) No. 1 for the Barton and Fifty Road Improvements EA. This project is intended to fulfill the requirements of the Phases 3 and 4 of the Municipal Class EA process. The PIC follows a previously held Public Information Update (PIU) from 2017, as well as the preceding Fruitland-Winona Secondary Plan and the Stoney Creek Urban Boundary Expansion Transportation Master Plan EA. The latter provided the direction for the current study and fulfilled the requirements of Phases 1 and 2 of the EA process.

The June 17, 2021 PIC presentation has been recorded and posted on the project web page: <https://engage.hamilton.ca/bartonfiftyea>, along with all other PIC materials.

The PIU 2017 materials can be found at the following web page: <https://www.hamilton.ca/sites/default/files/media/browser/2017-09-22/barton-fifty-ea-piu1-displaypanel.pdf>

This letter is being sent to you to inform you that while Stage 1 Archaeology Report has been completed for the study area in 2017 and is now also available on the above website, the Archaeology Stage 2 requirement is intended to be passed on to the Detailed Design process, as per standard City of Hamilton practice. Detailed Design is currently scheduled to start in 2025.

The general project website is available if you have any comments or concerns.

Natural Heritage Field Work was completed for this project in 2016-17.

We are reaching out to you in case you have any questions or comments that you wish to share with the study team at this time and to ask if you wish to meet to discuss any of the above and if additional time to comment is required. Please note that the original comment period for the project was extended until July 23, 2021.

Please do not hesitate to contact the undersigned at [margaret.fazio@hamilton.ca](mailto:margaret.fazio@hamilton.ca) or at Tel: 905-546-2424 Ext.2218.

Looking forward to your involvement in the project process.

Sincerely,

A handwritten signature in black ink, appearing to read 'M. Fazio'.

**CAUTION:** External email. Please do not click on links/attachments unless you know the content is genuine and safe.

Hello [REDACTED]

We are writing to follow up on the above project (The project was initiated in 2016). We have sent a Notice of PIC#1 to you in early June, but have not received any response from your Nation on this project to date. We wanted to ask if you had any questions or concerns with what is being proposed, before we finalize the next stage of the process – writing of the Environmental Study Report.

Please see the information on the project at the following website: <https://engage.hamilton.ca/bartonfiftyea>

We have completed the Archaeology Stage 1 for the project and the report link can be found via the bottom right hand side of the above project web page.

Similarly, Natural Heritage Inventory has been completed for this project and can be made available for viewing if desired.

Please let us know if you have any questions or comments and/or if you wish to discuss any of the above.

Many Thanks,

**Margaret Fazio, B.Sc., EP, MCIP, RPP**

October 19, 2021

**Subject: Barton and Fifty Road Improvements Phases 3 and 4 Municipal Class Environmental Assessment (EA).**

You will have already received a Notice of June 17, 2021 Public Information Centre (PIC) No. 1 for the Barton and Fifty Road Improvements via the [REDACTED] (please see attached copy of record). This project is intended to fulfill the requirements of the Phases 3 and 4 of the Municipal Class EA process. This PIC follows a previously held Public Information Update (PIU) from 2017, as well as the preceding Fruitland-Winona Secondary Plan and the Stoney Creek Urban Boundary Expansion Transportation Master Plan EA. The latter provided the direction for the current study and fulfilled the requirements of Phases 1 and 2 of the EA process.

The June 17, 2021 PIC presentation has been recorded and posted on the project web page: <https://engage.hamilton.ca/bartonfiftyea>, along with all other PIC materials.

The PIU 2017 materials can be found at the following web page: <https://www.hamilton.ca/sites/default/files/media/browser/2017-09-22/barton-fifty-ea-piu1-displaypanel.pdf>

This letter is being sent to you to inform you that while Stage 1 Archaeology Report has been completed for the study area in 2017 and is also available on the above website, the Archaeology Stage 2 requirement is intended to be passed on to the Detailed Design process, as per standard City of Hamilton practice. Detailed Design is currently scheduled to start in 2025.

The general project website is available if you have any comments or concerns.

Natural Heritage Field Work was completed for this project in 2016-17.

The original comment period for the project was extended until July 23, 2021, and although we recognize that this letter reaches you beyond that time period. We are reaching out to you in case you have any questions or comments that you wish to share with the study team and to ask if you wish to meet to discuss any of the above and what time to comment is required.

Please do not hesitate to contact the undersigned at [margaret.fazio@hamilton.ca](mailto:margaret.fazio@hamilton.ca) or at Tel: 905-546-2424 Ext.2218.

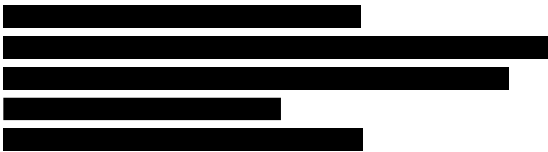

Looking forward to your involvement in the project process.

Sincerely,

A handwritten signature in black ink, appearing to read 'M. Fazio'.

Margaret Fazio. B.Sc., E.P., RPP, MCIP  
Senior Project Manager, Infrastructure Planning,  
Planning and Development Department, City of Hamilton

cc.

A list of five names, each redacted with a solid black horizontal bar of varying length.

June 14, 2024

Dear [REDACTED]

**Subject: Barton and Fifty Road Improvements – Notice of Public Information Centre (PIC) No. 2**

Please find attached the Notice of Public Information Centre No. 2 informing you of the updates to the Municipal Class Environmental Assessment (MCEA) for the Barton Street and Fifty Road Improvements Phases 2 – 4 (Schedule C project), and CN Rail Crossing Phases 1 & 2 (Schedule C project) study.

The purpose of this letter is to provide you with the opportunity to convey any issues or concerns regarding possible impacts to Indigenous and Treaty Rights, or any other interests or questions that your community may have regarding this study.

A Stage 1 Archaeological Assessment Report and Natural Heritage Report have been completed for this study area prior to the last PIC #1 (2021). These reports were previously circulated for your review.

This PIC will present the road design concepts showing a reduced right-of-way from that which was originally recommended by the Fruitland-Winona Secondary Plan (presented at PIC #1 in 2021), as well as a new implementation strategy for Barton Street between Lewis Road and Fifty Road.

If you have any questions or comments that you wish to share with the study team, wish to meet to discuss any of the above and/or if additional time is required to comment, please do not hesitate to contact the undersigned at [iplanning@hamilton.ca](mailto:iplanning@hamilton.ca) or [bortonfifty@arcadis.com](mailto:bartonfifty@arcadis.com).

Please note that the project information presented at this PIC, including a video recorded presentation will be found on the project website: <https://engage.hamilton.ca/bartonfiftyea>

On behalf of the Project Team, thank you for your interest and involvement in this study.

Sincerely,

**Margaret Fazio E.P., RPP, MCIP**
