\* Trip Scheduled for Thursday

## Wild Water Works (WWW)

A waterpark operating on conservation lands in Hamilton. Campers 7 years and older will rotate in groups to the parks attractions, including the wave pool, water slides, Eazy River, and Squirt Works. Campers will be required to wear a life jacket when using the wave pool and Eazy River. There are minimum height requirements to use the water slides. Campers 6 years and under will play exclusively in the Squirt Works

## Binbrook Conservation Area (BCA)

Campers will enjoy time getting back to nature by exploring trails and wildlife observation spots, in addition to large group games. Use of the spray pad will be based on availability and weather.

## Brantford Twin Valley Zoo (BTVZ)

Lions, Tigers, and Bears, Oh My! These are just some of the over 400 animals that campers will come face to face with as they explore the Brantford Twin Valley Zoo. The Zoo operates with its core values - respect, value, and protection for animals. With picnic spots, play areas, and nature trails, it's a place where campers and wildlife get to coexist.

## Royal Botanical Gardens (RBG)

Campers will learn about the importance of healthy natural spaces, and their place within them! RBG challenges children through inspiring curiosity, discovery, and connection in a natural setting. They will participate in games, exploration activities and discussions, that allows campers to explore the natural world around them!

## Crawford Lake (CL)

This conservation area trip in the Halton Region offers a variety of adventures for the day. Campers will partake in a guided hike around Crawford Lake and will experience hands-on learning and education in the reconstructed Longhouse teaching Village. The day will include traditional games, crafts, hiking and more!

## Hamilton Day

New this year, Campers will go on an adventure exploring a true Hamilton gem, Gage Park. During their visit they will engage in a guided tour of the tropical greenhouse, and explore the many other amenities the park has to offer. Campers will also enjoy a swim at one of Hamilton's many outdoor pools.
