

Notice of Study Commencement & Virtual Public Information Centre #2

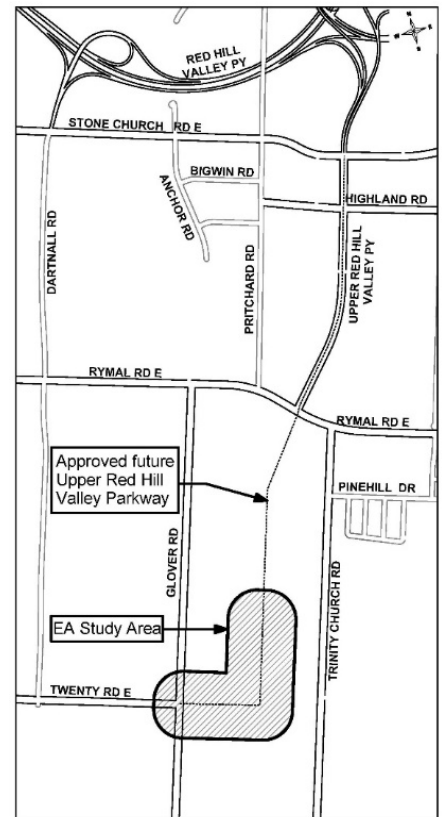

Twenty Road East and Upper Red Hill Valley Parkway Extensions Municipal Class Environmental Assessment Phases 3 and 4

The Study

The City of Hamilton has initiated a Municipal Class Environmental Assessment (Class EA) study for the Twenty Road East and Upper Red Hill Valley Parkway extensions. Twenty Road East is intended to be extended easterly from its existing intersection at Glover Road, and the Upper Red Hill Valley Parkway is intended to be extended southerly from its existing intersection at Rymal Road. These two road extensions will connect at a new intersection. These road extensions are necessary to meet the transportation needs in the area, and to support the ongoing and future development within the Red Hill Business Park South.

The Process

The approved North Glanbrook Business Park Transportation Master Plan and Red Hill Business Park South Transportation Master Plan Addendum collectively fulfilled the requirements of Phases 1 and 2 of the Class EA process. This next phase of the study is following the Phase 3 and 4 requirements for a Schedule C project under the Municipal Class EA document (October 2000, as amended in 2007, 2011 and 2015).

Public Information Centre (PIC) No. 2

The second PIC will allow the public to review the alternative and preferred designs, and share input with the project team. We invite you to attend the **live virtual PIC**, which will be available online to receive public input. You will be able to watch a pre-recorded presentation and give us your input via a downloadable comment sheet. Details are as follows:

Date: Thursday June 26, 2025 from 6:30 to 8:30 PM. The last day to submit comments online is on July 27, 2025.

Location: Please register and access the live virtual link on our project website below.
