

Voting Place Inspection Checklist

Tiaiiiittoii				War 8	d:	Poll: 5
□ Regular Poll ☑	□ Insti	tutional Poll			Commu	nity Poll
Completed by: Dave Michal – PM	Elections	Date: J	uly 10 & .	July 2	25	
Section 1: Building Inform	ation					
Building Name	Courtyard Ma	rriot – (905)3	83-7772			
Building Address	1224 Upper Ja	ames St L9C	3B1			
Section 3: Building Exterior	or					
		Signage				
Does the location have signs for the	ne street	□ Yes ☑				
address and/or building name that	are clearly	□ No				
visible from the street and well-lit of	during					
evening events?						
Is the main entrance easy to find v	vhen entering	□ Yes 🗹		Not	es:	
the site?		□ No				
		Parking				
Ques	tion		Y	es	No	Notes
1) Is Parking available onsite? N	lote # of space	S	6	Z		160+
2) Is the parking lot paved?				Z		
3) Parking lot general condition of	bservation? N	ote: poor,		<u> </u>	(Good
average, good						
4) Are Accessibility parking space	es available (id	dentified with	6	Z		
accessible parking signage)?						4
Note # of spaces						
5) Are the accessible parking spa	aces located as	s close as	5	Z		
possible to the main entrance	?					
6) Do sidewalks have curb cuts a	at locations nea	ar parking and	d E	Z		
along the route to the accessil	ole entrance?					
7) Is on-street parking available?					☑	
8) Is on-street accessible parking	2 aldelieve					

9)	Is the location accessible by DARTS?	Ø		
10)	Is there an area for passenger drop-off/pick-up?	Ø		
11)	Is the location on a bus route?	Ø		
12)	Is there a place to securely store bicycles?	Ø		No bike rack. Many
				places to lock a bike
	Access to the Building			
	Question	Yes	No	Notes
1)	Do sidewalks, walkways, pathways to the main entrance	Ø		
	surfaces appear firm, stable, slip resistant?			
2)	Sidewalks, walkways, pathways to the main entrance general			Good
	condition observation? Note: poor, average, good			
3)	Are there sudden level, or slope changes to the main		Ø	
	entrance?			
4)	Is there an accessible route of travel from the parking lot to	Ø		
	the main entrance?			
5)	Accessible route of travel from the parking lot to the main			Good
	entrance general condition observation?			
	Note: poor, average, good			
6)	Do sidewalks, walkways, pathways appear appropriate	Ø		
	widths? (allowing two persons to pass each other easily)			
7)	Are there low hanging signs or other impediments restricting		Ø	
	accessible access to the building?			
8)	Are there stairs leading to the main entrance?			
	If present,			
	- Surface appear firm, stable, slip resistant			
	- Uniform risers and runs (steps)		n/a	
	- Have tactile walking surface indicators at the top of flight			
	- High tonal contrast strip on leading edge of stairs			
	- Handrails on both sides			
9)	Stairs general condition observation?		n/a	
	Note: poor, average, good			
10)	Is there an accessible ramp leading to the main entrance?		n/a	
	If present,			
	- Surface appears firm, stable, slip resistant			
	- Running slope appears to meet 1:15 (every 1" in elevation,			
	15" in length)			

- Clear landing areas (the flat area at the top, bottom or			
turning transitions)			
- handrails on both sides			
11) Ramp general condition observation?		n/a	
Note: poor, average, good			
12) Is the main entrance equipped with automatic sliding doors?	Ø		
13) Would you consider the width of the main entrance doors to			
be (add response in note):			
Narrow			Wide
Standard			
Wide			
14) Entrance doors general condition observation?	Ø		
Note: poor, average, good			
15) Does the main entrance door(s) have a power or automatic	Ø		
door for entry?			
16) Is the door threshold more than ½ inch in height?		V	
17) Does the main entrance have an exterior canopy?	\sqrt		
Lighting			
Question	Yes	No	Notes
Is there lighting in the parking areas for the evening?	Z		
2) Is there lighting to illuminate sidewalks, walkways, pathways	V		
to the main entrance?			
3) Is there lighting to illuminate the main entrance of this	Ø		
location?			

Se	Section 4: Building Interior					
	Interior Access					
	Question	Yes	No	Notes		
1)	Does this location have more than one level?		n/a			
2)	Main entry and corridor flooring?	Ø				
	- Firm, slip resistant, produce minimal glare					
	- Carpet					
3)	Are there any stairs?					
	If present,					
	- Surface appear firm, stable, slip resistant					

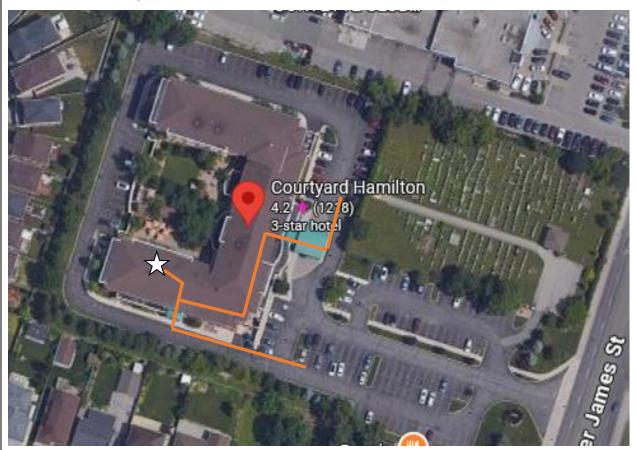

- Have tactile walking surface indicators at the top of flight - High tonal contrast strip on leading edge of stairs - Handralis on both sides 4) Stairs general condition observation? Note: poor, average, good 5) Is there an accessible ramp(s)? If present, - Surface appear firm, stable, slip resistant - Running slope appears to meet 1:15 (every 1" in elevation, 15" in length) - Clear landing areas (the flat area at the top, bottom or turning transitions) - Handralis on both sides 6) Ramp general condition observation? Note: poor, average, good 7) Is there an elevator(s)? If present, - Door width, narrow, standard (36"), wide - Interior cab approx. 5'x5' or more - Illuminated buttons - Braille - Audible indicators & signals - handralis 8) Elevator general condition observation? Note: poor, average, good 9) Is there an accessible route of travel from the main entrance lot to voting location? Narrow Standard Wide 11) Do any obstacles impede electors from reaching the voting location? Note impediment obstacles. If yes, will impediment obstacles be removed on election day? 12) Is there a fire alarm system on site?		- Uniform risers and runs (steps)		n/a	
- High tonal contrast strip on leading edge of stairs - Handrails on both sides 4) Stairs general condition observation? Note: poor, average, good 5) Is there an accessible ramp(s)? If present, - Surface appear firm, stable, slip resistant - Running slope appears to meet 1:15 (every 1" in elevation, 15" in length) - Clear landing areas (the flat area at the top, bottom or turning transitions) - Handrails on both sides 6) Ramp general condition observation? Note: poor, average, good 7) Is there an elevator(s)? If present, - Door width, narrow, standard (36"), wide - Interior cab approx. 5'x5" or more - Illuminated buttons - Braille - Audible indicators & signals - handrails 8) Elevator general condition observation? Note: poor, average, good 9) Is there an accessible route of travel from the main entrance lot to voting location? 10) Would you consider the width of the interior doors/passages to the voting location to be (add response in note): Narrow Standard Wide 11) Do any obstacles impede electors from reaching the voting location? Note impediment obstacles. If yes, will impediment obstacles be removed on election day?		· · · ·			
- Handrails on both sides 4) Stairs general condition observation? Note: poor, average, good 5) Is there an accessible ramp(s)? If present, - Surface appear firm, stable, slip resistant - Running slope appears to meet 1:15 (every 1" in elevation, 15" in length) - Clear landing areas (the flat area at the top, bottom or turning transitions) - Handrails on both sides 6) Ramp general condition observation? Note: poor, average, good 7) Is there an elevator(s)? If present, - Door width, narrow, standard (36"), wide - Interior cab approx. 5'x5' or more - Illuminated buttons - Braille - Audible indicators & signals - handrails 8) Elevator general condition observation? Note: poor, average, good 9) Is there an accessible route of travel from the main entrance lot to voting location? 10) Would you consider the width of the interior doors/passages to the voting location to be (add response in note): Narrow Standard Wide 11) Do any obstacles impede electors from reaching the voting location? Note impediment obstacles. If yes, will impediment obstacles be removed on election day?		- High tonal contrast strip on leading edge of stairs			
Note: poor, average, good 5) Is there an accessible ramp(s)? If present, - Surface appear firm, stable, slip resistant - Running slope appears to meet 1:15 (every 1" in elevation, 15" in length) - Clear landing areas (the flat area at the top, bottom or turning transitions) - Handrails on both sides 6) Ramp general condition observation? Note: poor, average, good 7) Is there an elevator(s)? If present, - Door width, narrow, standard (36"), wide - Interior cab approx. 5'x5' or more - Illuminated buttons - Braille - Audible indicators & signals - handrails 8) Elevator general condition observation? Note: poor, average, good 9) Is there an accessible route of travel from the main entrance lot to voting location? 10) Would you consider the width of the interior doors/passages to the voting location to be (add response in note): Narrow Standard Wide 11) Do any obstacles impede electors from reaching the voting location? Note impediment obstacles. If yes, will impediment obstacles be removed on election day?					
Note: poor, average, good 5) Is there an accessible ramp(s)? If present, - Surface appear firm, stable, slip resistant - Running slope appears to meet 1:15 (every 1" in elevation, 15" in length) - Clear landing areas (the flat area at the top, bottom or turning transitions) - Handrails on both sides 6) Ramp general condition observation? Note: poor, average, good 7) Is there an elevator(s)? If present, - Door width, narrow, standard (36"), wide - Interior cab approx. 5'x5' or more - Illuminated buttons - Braille - Audible indicators & signals - handrails 8) Elevator general condition observation? Note: poor, average, good 9) Is there an accessible route of travel from the main entrance lot to voting location? 10) Would you consider the width of the interior doors/passages to the voting location to be (add response in note): Narrow Standard Wide 11) Do any obstacles impede electors from reaching the voting location? Note impediment obstacles. If yes, will impediment obstacles be removed on election day?	4)	Stairs general condition observation?			
5) Is there an accessible ramp(s)? If present, - Surface appear firm, stable, slip resistant - Running slope appears to meet 1:15 (every 1" in elevation, 15" in length) - Clear landing areas (the flat area at the top, bottom or turning transitions) - Handrails on both sides 6) Ramp general condition observation? Note: poor, average, good 7) Is there an elevator(s)? If present, - Door width, narrow, standard (36"), wide - Interior cab approx. 5'x5' or more - Illuminated buttons - Braille - Audible indicators & signals - handrails 8) Elevator general condition observation? Note: poor, average, good 9) Is there an accessible route of travel from the main entrance lot to voting location? Note voting location to be (add response in note): Narrow Standard Wide 11) Do any obstacles impede electors from reaching the voting location? Note impediment obstacles. If yes, will impediment obstacles be removed on election day?		-		n/a

Location Drawing (include measurements)

Please diagram the parking lot, the route to the main entrance, any ramps, walkways and accessible entrances, as well as the voting location and the route inside the building to that location.

45m from parking area to side entrance (direct to poll entrance)

Section 5: Overall Assessment of Location and the Area

Very accessible voting location from either front entrance or south entrance.

Double wide entrances and level access.
