NOTES FOR HOLDING REMOVAL:

In order to allow for the development of the first 50 permanent mobile home sites and services, it will be necessary to first remove the Holding Provision "H8" from the lands to the south. This will accommodate the relocation of the seasonal camping sites from the subject lands to lands to the south.

(By-law No. 15-173, July 10, 2015, as amended by OMB Decision PL150805 dated May 3, 2016)

10. Notwithstanding Section 12.2 and Special Exception No. 248 of this By-law, on those lands zoned Rural (A2) Zone, identified on Map 16 of Schedule "A" – Zoning Maps and described as part of 57 12th Concession Road East, the development of an additional 100 permanent mobile home sites, for a total of 150 permanent mobile home sites, shall not be permitted until such times as:
 - (i) Functional Servicing Report
An addendum to the Functional Servicing Report and Operations and Maintenance Manual is required which demonstrates the following to the satisfaction of the Senior Director of Growth Management and the Director of Hamilton Water, Public Works:
 - a) Undertake a Hydrogeological Study for at least one (1) year, with the assistance of a Qualified Person, to characterize the following:
 - i) The direction of groundwater flow;
 - ii) The existence of both an upstream and downstream monitoring well whose location reflects the groundwater flow regime;
 - iii) Confirm that the downstream well is located within the

- effluent plume and at least 40 metres from the septic system and tile field;
- iv) Confirm that the monitoring well number and the monitoring well information provided to date was sampled from the upstream and downstream monitoring wells identified in (ii) and (iii), above;
 - v) Determine appropriate effluent trigger limits at the monitoring wells;
 - vi) If recommended by the Hydrogeologist, install additional monitoring wells in order to address items (i) to (v);
- b) Following the collection of at least three consecutive years of monitoring data, the Owner shall reassess the Hydrogeological Study to confirm effluent trigger limits and provide recommendations on any required infrastructure upgrades, referencing the monitoring data in conjunction with the water and waste water flow rate and occupancy records;
 - c) Submission of theoretical design flows for both the water and wastewater systems, based on full occupancy of the Fern Brook Development (150 permanent and 100 season sites), following MOE Design Guidelines (2008), City of Hamilton Engineering Guidelines (2006), and the Ontario Building Code;
 - d) Submission of historical water and wastewater flow rates which are based on Ministry of Environment Design Criteria and accompanied by occupancy records for the related time period;
 - e) Demonstration that the rated capacity of the Water Treatment System is capable of servicing the full Fern Brook Development (150 permanent and 100 seasonal sites), with the rated capacity being based on the largest unit for each process component out of service, and that the system is adequately designed to meet the MOE/Hamilton Fire Department fire storage and fire flow requirements;

- f) Demonstration that the Sewage Treatment System will:
 - i) function adequately for the design flows of the full Fern Brook Development (150 permanent sites and 100 seasonal sites), identifying the need for additional equipment in order to meet the rated firm capacity with the largest unit out of service;
 - ii) operate in accordance with the associated Certificate of Approval;
 - iii) produce an effluent, at the discharge point of the treatment system, with a nitrate concentration less than, or equal to 10mg/L; and,
 - iv) maintain a nitrate concentration, at the property boundary downstream of the sewage treatment system, that does not exceed 2.5 mg/L.; and,
- g) Revisions to the Operations and Maintenance Manuals for the water and wastewater treatment facilities which follow MOE's prescribed format and which include a comprehensive set of operating instructions and a process narrative to explain how the facility is intended to operate in accordance with the required treatment system as determined through the ongoing engineering analysis and in consultation with the City.

(By-law No. 23-204, October 25, 2023)

162. Notwithstanding Section 11.3 on lands zoned Transit Oriented Corridor Multiple Residential (TOC3, 874, H162) Zone, identified on Map 1395 of Schedule "A" – Zoning Maps and described as 81 and 87 Rymal Road East, no development shall be permitted until such time as:

SCHEDULE "D": HOLDING PROVISIONS

- i) The properties municipally known as 81 and 87 Rymal Road East shall be merged in title, to the satisfaction of the Director of Planning and Chief Planner.
- ii) The Owner shall submit and receive approval of a revised Functional Servicing Report to demonstrate that the increased wastewater generated from the proposed development will not adversely impact the hydraulic performance of the City's sanitary sewer system by completing a sanitary sewer analysis to demonstrate that there is residual capacity in the system to support the proposed development as well as any future intensification within the catchment, to the satisfaction of the Director of Development Engineering.
- iii) The Owner shall submit and receive approval of a Stormwater Management Report and design to demonstrate there is a suitable storm outlet for the proposed development, to the satisfaction of the Director of Development Engineering.
- iv) The Owner shall submit and receive approval of a Watermain Hydraulic Analysis identifying the modelled system pressures at pressure district level under various boundary conditions and demand scenarios to demonstrate that the municipal system can provide for required flows to support the proposed development, to the satisfaction of the Director of Development Engineering.
- v) The Owner shall acknowledge and agree to convey and dedicate the ultimate right-of-way width for the DiCenzo Drive extension, in accordance with the current City standards and as shown on the Neighbourhood Plan, to the City without cost and free of encumbrance, through a future Site Plan Control application, to the satisfaction of the Director of Development Engineering.
- vi) The Owner shall enter into and register on title of the lands a Development Agreement, upon the City's request, that outlines the Owner's responsibility to pay their proportional share of the cost to complete the DiCenzo Drive extension including all municipal services and private service connection in accordance with City standards, to the satisfaction of the Director of Development Engineering.

- vii) The Owner shall submit and receive approval of a preliminary plan and profile drawing for the DiCenzo Drive extension, from the existing dead end to the west of Atessa Drive to Delta Drive, prepared by a qualified professional, to the satisfaction of the Director of Development Engineering, demonstrating the following items:
1. The inverts of the municipal sewers that feasibly redirect storm and sanitary flows from the interim to the ultimate servicing scenario;
 2. The preliminary vertical alignment for the DiCenzo Drive extension complies with the City's criteria noted in the current City Development Guidelines;
 3. How the proponent is meeting the existing grades at the existing commercial development adjacent to the west property line (55 Rymal Road East); and,
 4. How the preliminary centreline elevations provide for the required cover to facilitate extension of the existing storm and sanitary sewers on DiCenzo Drive to provide for the ultimate storm (minor and major) and sanitary outlets for the property.

(By-law No. 24-053, April 10, 2024)

163. Notwithstanding Section 10.5 of this By-law, within lands zoned Mixed Use Medium Density (C5, 877) Zone, identified on Map No. 1195 of Schedule "A" – Zoning Maps and described as 851 Lawrence Road, no development shall be permitted until such time as:
- a) The Owner submitting a Parking Assessment demonstrating that:
