

Utility inspection work to begin on Hamilton LRT Corridor

Beginning Late August/September 2026

What You Need To Know

Utilities must be relocated, protected, or otherwise accommodated before major LRT construction can proceed. This work helps ensure that utility companies and the City of Hamilton can continue to access, maintain, inspect, and upgrade critical infrastructure once the LRT is in operation. As part of the detailed design phase of the Hamilton LRT, additional field investigations are required. These investigations will help confirm the precise location and condition of underground utilities along the corridor. Over the coming months, the team will investigate locations along the LRT alignment to validate existing information and collect additional data needed to support project design and construction planning.

HOURS OF WORK

- Monday to Saturday from 7:00 a.m. to 7:00 p.m.

WHAT TO EXPECT

- No utility disruptions are anticipated.
- No impact to driveway access in the construction area.
- Increased presence of construction vehicles and equipment can be expected in the work area.
- Work areas will be clearly marked or delineated off to ensure public safety.
- Work may be delayed or rescheduled due to weather or unforeseen circumstances.

TRAFFIC IMPACTS

- Minor delays may be experienced near the work zone.
- Intermittent lane closures will be required for periods of time during the work.
- Signage will redirect traffic around the work zones.
- A paid duty officer, flaggers and detour signs will be onsite to direct traffic as needed.
- All businesses in the area will remain open during the work. Please follow signage for access.

HSR & GO BUS TRANSIT SERVICE

- HSR bus stops may be temporarily relocated away from work zones.
- No GO bus stops will be impacted.
- Signs will be posted to keep residents informed.

NOISE & VIBRATION

- Residences and businesses in the area may experience noise and vibration caused by construction equipment related to this work.
- Crews will take measures to minimize disruptions to the surrounding area wherever possible.
- Residences and businesses in the area can expect noise and vibration caused by construction equipment related to this work.

PEDESTRIAN ACCESS

- Sidewalk closures or pedestrian detours will be in place while the work is underway, with signs in place to direct pedestrians as needed.
- Clear and defined walking paths will be maintained during construction to ensure pedestrian safety.

EMERGENCY CONTACT

- In case of emergencies, please call **David Pitt - 416-668-4363** or **Mario Caramo - 289-465-4398**
