Delivered by email

**Subject: Main & Whitney (HD17A) Water Pumping Station
Municipal Class Environmental Assessment and Conceptual Design
Notice of Study Area Expansion and Public Information Centre No. 2**

Dear Mr. Laforme:

The City of Hamilton is proceeding with a Municipal Class Environmental Assessment to develop and assess alternative solutions to replace the existing Main & Whitney (HD17A) Water Pumping Station (WPS) currently located at Main Street West and Whitney Avenue. This project is being carried out as a Schedule B project under the Municipal Engineers Association Municipal Class Environmental Assessment (October 2000, as amended in 2007, 2011 and 2015). We continue to welcome any interest in engagement from the Mississaugas of the Credit First Nation on this project.

The purpose of this follow-up letter is to check whether the Mississaugas of the Credit First Nation has any feedback/comments regarding the information presented in the Public Information Centre (PIC) No. 2, which was held virtually from **April 28, 2023** to **May 19, 2023**. The information presented at this second PIC is currently available on the City website at www.hamilton.ca/mainwhitneystationea.

In addition, the City of Hamilton is inviting the Mississaugas of the Credit First Nation to review and comment on the Draft Stage 1 Archaeological Assessment Report (dated April 11, 2023) prepared by Archaeological Services Inc. (ASI), which was sent via email on April 12, 2023 and/or April 24, 2023. The registered archaeological sites within or near the short-listed alternative sites have been identified.

The Mississaugas of the Credit First Nation provided the City with a signed agreement on April 24, 2023. The purpose of this agreement is to provide the Mississaugas of the Credit First Nation with capacity assistance to review reports and other materials in connection with all archaeological assessments required for the subject Project, Main & Whitney (HD17A) Water Pumping Station Municipal Class Environmental Assessment and Conceptual Design.

The City of Hamilton acknowledges that the Mississaugas of the Credit First Nation should be aware of and engaged with any Stage 2 Archaeological Assessment Study/Fieldwork and/or any future archaeological studies that may be required, and especially the discovery and preservation of Indigenous artifacts and sacred burial grounds. The City of Hamilton will keep the Mississaugas of the Credit First Nation informed about any future needed studies and identify opportunities for participation.

If you have any information that may assist us in the completion of this project or would like to discuss the project in any further details, please contact me by email at Florentin.Novac@hamilton.ca or by phone at (905) 546-2424 ext. 2823.

Thank you very much.

Sincerely,

A handwritten signature in black ink, appearing to read 'Florentin Novac', with a horizontal line drawn through the middle of the signature.

Good afternoon:

The City of Hamilton (Hamilton Water) is proceeding with a Municipal Class Environmental Assessment (Class EA) to identify the preferred location for the replacement of the existing HD17A Water Pumping Station (WPS), currently located in Pressure District 17 (PD17) close to the intersection of Main Street West and Whitney Avenue.

The purpose of this email is to provide you with a formal follow-up letter (please see attached) notifying the **Mississaugas of the Credit First** of the study and Public Information Centre (PIC) No. 2, which was held virtually from **April 28, 2023** until **May 19, 2023**. The information presented at this second PIC is currently available on the City website at www.hamilton.ca/mainwhitneystationea.

If you have any information that may assist us in the completion of this project or would like to discuss the project in any further details, please contact me by email at Florentin.Novac@hamilton.ca or by phone at (905) 546-2424 ext. 2823.

Thank you very much,

Subject: Hamilton Main and Whitney (HD17A) WPS Class EA_ Draft Stage 1-Archaeological Assessment Report Review

Good morning:

The City of Hamilton (Hamilton Water) is proceeding with a Municipal Class Environmental Assessment (Class EA) to identify the preferred location for the replacement of the existing HD17A Water Pumping

Station (WPS), currently located in Pressure District 17 (PD17) close to the intersection of Main St. W. and Whitney Ave. A Notice of Study Commencement was provided on April 28, 2022.

The purpose of this email is to invite the **Mississaugas of the Credit First Nation** to review and comment on the Draft Stage 1 Archaeological Assessment Report (dated April 11, 2023) prepared by Archaeological Services Inc (ASI) and attached to this email. Should you charge a fee for providing this review service, please send me a letter agreement/contract that would facilitate reimbursement by the City of the costs associated with rendering such services.

I will take this opportunity to inform you that Public Information Centre No. 2 (PIC No. 2) will be held shortly. This event will be held virtually on the City's webpage at: www.hamilton.ca/mainwhitneystationea and will be available from April 28, 2023 until May 19, 2023. The City of Hamilton will be sending another email inviting you to participate in Public Information Centre No. 2.

If you have any information that may assist us in the completion of this project or would like to discuss the project in further detail, please contact me by email at Udo.Ehrenberg@hamilton.ca or by phone at (905) 546-2424 ext. 2499.

Thank you very much,

Udo Ehrenberg

Main & Whitney (HD17A) Water Pumping Station
Municipal Class Environmental Assessment and Conceptual Design**

Dear Mr. LaForme,

The City of Hamilton is proceeding with a Municipal Class Environmental Assessment to develop and assess alternative solutions to replace the existing Main & Whitney (HD17A) Water Pumping Station (WPS) currently located at Main Street West and Whitney Avenue. This project is being carried out as a Schedule B project under the Municipal Engineers Association Municipal Class Environmental Assessment (October 2000, as amended in 2007, 2011 and 2015). We continue to welcome any interest in engagement from the Mississaugas of the Credit First Nation on this project.

The purpose of this letter is to invite the Mississaugas of the Credit First Nation to participate in Public Information Centre No. 2. This event will be held virtually on the City's webpage at: www.hamilton.ca/mainwhitneystationea and will be available from April 28, 2023 until May 19, 2023.

It may be important for you to know about the Study Area Expansion. Project details and a revised key map showing the study area are provided in the attached notice. I will take this opportunity to confirm that the Draft Stage 1 Archaeological Assessment Report (dated April 11, 2023) has been prepared by Archaeological Services Inc.(ASI), and sent separately by email on April 12, 2023.

The City of Hamilton acknowledges that the Mississaugas of the Credit First Nation should be aware of and engaged regarding any future archaeology studies, and especially the discovery and preservation of Indigenous artifacts and sacred burial grounds. The City of Hamilton will keep the Mississaugas of the Credit First Nation informed about any future needed studies and identify opportunities for participation.

Attachment: Hamilton Main and Whitney (HD17A) WPS Class EA - Notice of Study
Area Expansion and Public Information Centre No 2

Main & Whitney (HD17A) Water Pumping Station Municipal Class Environmental Assessment and Conceptual Design

Notice of Study Area Expansion and Public Information Centre (PIC) No. 2

Project Overview

The City of Hamilton has initiated a Municipal Class Environmental Assessment (Class EA) study following the Schedule B process to develop and assess alternative solutions for a new Water Pumping Station (WPS) to replace the existing Main & Whitney (HD17A) WPS currently located at Main Street West & Whitney Avenue.

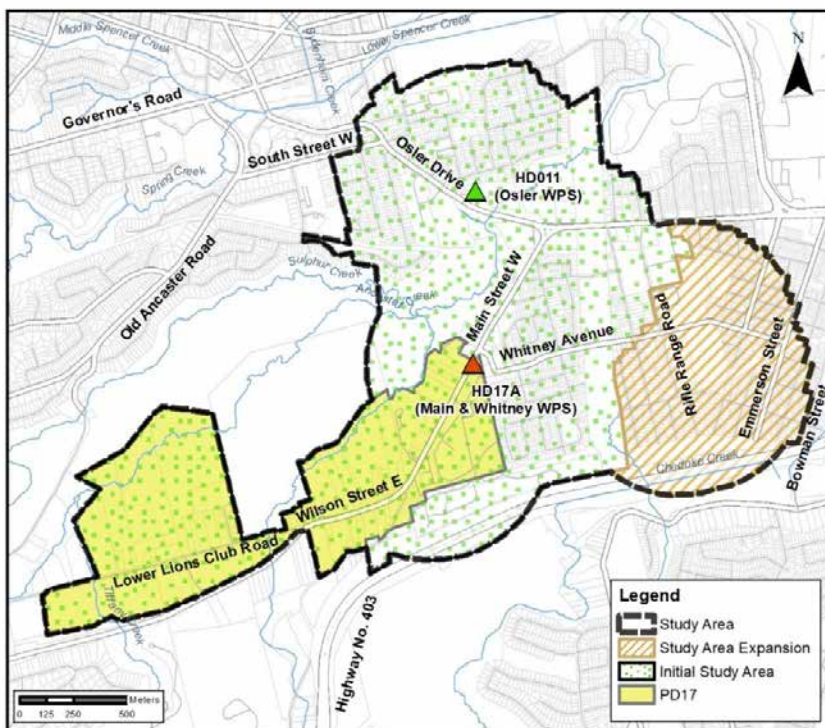

This study will define the problems/opportunities associated with the existing HD17A WPS, assess alternative solutions, and determine the preferred location for a new WPS. A conceptual design will be completed identifying the main design aspects of the preferred alternative. Once the new pumping station is commissioned, the existing HD17A WPS will be decommissioned.

The first PIC was held virtually between May 12, 2022 and June 2, 2022. The purpose of the first PIC was to present existing conditions of the study area, identify potential problems/opportunities and obtain feedback from the public to inform this Class EA study.

Additional project information is available on the City's webpage at: www.hamilton.ca/mainwhitneystationea.

Study Area Expansion

Following the first PIC, and through evaluation and screening of the potential sites, the Study Area boundary was expanded further east, as shown in the Study Area map.

Public Information Centre No. 2

The second PIC will be held virtually between April 28, 2023 and May 19, 2023. The purpose of the second PIC is to present the evaluation and ranking of short-listed alternative sites, present the recommended site for the new WPS, obtain public input on the recommended site, and outline the next steps in the Class EA process.

The Process

This project is being carried out as a Schedule B project under the *Municipal Engineers Association Municipal Class Environmental Assessment* (October 2000, as amended in 2007, 2011 and 2015).

Once this Class EA study is complete, a Project File Report (PFR) documenting the decision-making process will be made available for public review.

How to Participate

The City of Hamilton encourages the public and stakeholders to participate in this planning process. Public input and comments are encouraged throughout the Class EA process and can be directed to the project team listed below.

We invite you to participate in PIC No. 2. This event will be hosted virtually on the City's webpage at: www.hamilton.ca/mainwhitneystationea to protect the health and safety of Hamilton residents and our staff. PIC No. 2 materials will be made available virtually from **April 28, 2023** until **May 19, 2023**. Please submit your completed Comment Sheet by email or mail to the project team listed below by May 19, 2023.

Comments

We are interested in hearing any comments or concerns you may have with respect to this study. Comments received through the course of the study will be considered in selecting the preferred site. Anyone that wishes to comment on or be involved in this study should indicate their interest to:

**Archaeological Review Agreement between:
The Mississaugas of the Credit First Nation (“MCFN”)
and
[name of the proponent]**

A - Background

1. The purpose of this agreement is to provide the Mississaugas of the Credit First Nation (hereinafter, “MCFN”) with capacity assistance to review reports and other materials in connection with all archaeological assessments required for the [name of project] (hereinafter, “the Project”) located at [address], in [town/city], Ontario, owned by [name of the proponent], (hereinafter, “the Proponent”).
2. The Proponent understands that MCFN wishes its designated representatives at the Department of Consultation and Accommodation (hereinafter, “DOCA”) to provide timely and meaningful comment on the Project via its established review process.
3. The Proponent, or their consultant(s), will therefore provide all reports in draft form to MCFN (via DOCA) for review and comment prior to their submission to other approval or regulatory authorities. The Proponent and their consultant(s) agree to provide reasonable and adequate time for DOCA to complete its review and provide comments on draft reports. DOCA requires a minimum of three weeks to complete any review of materials and provide comments on draft reports.
4. For archaeological assessments, the Proponent agrees that their consultant(s) will provide, if applicable, both the Supplementary Documentation and the Indigenous Engagement report alongside the draft archaeological report. The Indigenous Engagement report must contain the consultant’s full account of MCFN’s participation in and comments on the archaeological assessment.
5. For archaeological assessments, the Proponent agrees that no new fieldwork will commence until MCFN has completed its review and has provided comments on the previous Stage of assessment.
6. MCFN agrees that MCFN representatives will have appropriate qualifications for the work required – for example, education in environmental and/or archaeological assessments – and experience in bridging Indigenous perspectives with Western approaches, as reasonably determined by MCFN.

B – Fees and Cost Structure

7. The Proponent will provide capacity funding for the designated DOCA staff representative in the amount of \$150.00 per hour for all activities relating to review of Project materials. An estimate of costs is provided in Schedule B.
8. If MCFN is of the view, that designated DOCA staff are unable to complete a comprehensive technical review of Project materials, the Proponent agrees to pay costs incurred by MCFN to retain an external expert in the appropriate field to be chosen at MCFN's sole discretion. The Parties agree that a review by an external expert will commence following mutual acceptance by both Parties of an estimate of work provided by the expert.

C – Additional Conditions

9. All archaeological work in connection with any Project in the Territory will be carried out in accordance with the *Ontario Heritage Act* and its Regulations. The Archaeological work will meet or exceed the Ministry of Citizenship and Multiculturalism (hereinafter, "MCM") standards and guidelines for consultant archaeologists as amended, including the *Terms and Conditions for Archaeological Licences, Standards and Guidelines for Consultant Archaeologists (2011)* and the *Draft Engaging Aboriginal Communities in Archaeology Technical Bulletin (2011)*, (hereinafter collectively, "MCM Standards 2011"), and any subsequent or updated guidelines or bulletins from MCM.
10. The Proponent agrees that all archaeological work conducted for the Project will comply with the *MCFN Standards and Guidelines for Archaeology* (published April 2, 2018), (hereinafter, "MCFN Standards") as long as the MCFN Standards do not fall below MTCS Standards 2011. The MTCS Standards 2011 will be paramount in the event of a direct conflict between MCFN Standards and the MCM Standards 2011.
11. The Proponent shall make best efforts to avoid and protect archaeological sites, artifacts, and/or features. The Parties agree that the preferred option for human remains that may be of Aboriginal ancestry is that the human remains stay where they are found with appropriate protections.
12. If archaeological resources are encountered at any time during construction or other Project-related activity, all excavation or other activity that could disturb the site shall immediately cease, and the Proponent shall immediately notify MCFN's duly appointed

Archaeological Operations Supervisor or designate. The Parties shall work collaboratively to minimize impacts and ensure respectful treatment of any archaeological resources in accordance with the practices and values of MCFN as identified by MCFN.

13. If human remains are encountered at any time during construction or other Project-related activity, the following steps shall be taken:
 - a. All excavation or other activity that could disturb the site shall immediately cease, and the area shall be secured in a manner which protects the site location and prevents public access and trespass; and
 - b. In addition to any notifications required under the *Funeral, Burial and Cremation Services Act, 2002*, SO 2002, C 33, the Proponent shall immediately contact MCFN's duly appointed Archaeological Operations Supervisor or designate; and
 - c. MCFN shall be permitted to conduct any ceremonies on site in relation to the human remains that may be of Aboriginal ancestry; and
 - d. MCFN shall be consulted about all steps in the investigation and any decisions or agreements to be made regarding human remains that may be of Aboriginal ancestry.
14. Nothing in this Agreement shall be interpreted or implemented so as to derogate or abrogate from any MCFN Aboriginal or Treaty right or claim, or to indicate consent to the Project.

D - Method of Payment

15. The Parties agree that the Proponent will pay the capacity funding as agreed to above by cheque or bank transfer and upon receipt of an invoice from MCFN. All invoices will be addressed directly to the Proponent, the Project will be noted in the text of each invoice, and all invoices will be prepared as per MCFN-DOCA's standard invoicing format.

Invoices should be submitted electronically to the following address:

Email address: [insert email address here]

Attention: [insert name here]

[name of the proponent]

[phone number of proponent]

[full address of proponent]

16. All payment should be made to the MCFN Department of Consultation and Accommodation to the following address. For additional information, please call the office at 905-768-4260.

Email address: AccountsReceivable@mncfn.ca

Attention: Accounts Receivable
2789 Mississauga Rd.
Hagersville, Ontario
N0A 1H0

17. After thirty [30] days, a 5% monthly compounded interest rate will be charged on outstanding invoices. After six [6] months of non-payment, a 20% monthly compounded interest rate will be charged on outstanding invoices.

F – Disclaimer

18. The Parties agree that the capacity funding payments for the FLRs will be used only for the purposes described in this Agreement and will not be paid for the improper personal gain of any individual or for any other purpose that might violate any Canadian anti-corruption law.
19. This agreement may be executed in counterparts, including via electronic signature.
20. This agreement is legally binding on MCFN and the Proponent.
21. This agreement is effective as of the date of execution by the Parties. In the event Project-related activities continue beyond, April 1, 2025, the Parties agree to conclude a new agreement to address MCFN involvement in the Project after April 1, 2025.

**Archaeological Review Agreement between:
The Mississaugas of the Credit First Nation (“MCFN”)
and
City of Hamilton**

A - Background

1. The purpose of this agreement is to provide the Mississaugas of the Credit First Nation (hereinafter, “MCFN”) with capacity assistance to review reports and other materials in connection with all archaeological assessments required for the [Main & Whitney (HD17A) Water Pumping Station Municipal Class Environmental Assessment and Conceptual Design] (hereinafter, “the Project”) located at [see invitation letter for study area boundaries with no specific address], in [City of Hamilton], Ontario, owned by [City of Hamilton], (hereinafter, “the Proponent”).
2. The Proponent understands that MCFN wishes its designated representatives at the Department of Consultation and Accommodation (hereinafter, “DOCA”) to provide timely and meaningful comment on the Project via its established review process.
3. The Proponent, or their consultant(s), will therefore provide all reports in draft form to MCFN (via DOCA) for review and comment prior to their submission to other approval or regulatory authorities. The Proponent and their consultant(s) agree to provide reasonable and adequate time for DOCA to complete its review and provide comments on draft reports. DOCA requires a minimum of three weeks to complete any review of materials and provide comments on draft reports.
4. For archaeological assessments, the Proponent agrees that their consultant(s) will provide, if applicable, both the Supplementary Documentation and the Indigenous Engagement report alongside the draft archaeological report. The Indigenous Engagement report must contain the consultant’s full account of MCFN’s participation in and comments on the archaeological assessment.
5. For archaeological assessments, the Proponent agrees that no new fieldwork will commence until MCFN has completed its review and has provided comments on the previous Stage of assessment.
6. MCFN agrees that MCFN representatives will have appropriate qualifications for the work required – for example, education in environmental and/or archaeological

assessments – and experience in bridging Indigenous perspectives with Western approaches, as reasonably determined by MCFN.

B – Fees and Cost Structure

7. The Proponent will provide capacity funding for the designated DOCA staff representative in the amount of \$150.00 per hour for all activities relating to review of Project materials. An estimate of costs is provided in Schedule B.
8. If MCFN is of the view, that designated DOCA staff are unable to complete a comprehensive technical review of Project materials, the Proponent agrees to pay costs incurred by MCFN to retain an external expert in the appropriate field to be chosen at MCFN's sole discretion. The Parties agree that a review by an external expert will commence following mutual acceptance by both Parties of an estimate of work provided by the expert.

C – Additional Conditions

9. All archaeological work in connection with any Project in the Territory will be carried out in accordance with the *Ontario Heritage Act* and its Regulations. The Archaeological work will meet or exceed the Ministry of Citizenship and Multiculturalism (hereinafter, "MCM") standards and guidelines for consultant archaeologists as amended, including the *Terms and Conditions for Archaeological Licences, Standards and Guidelines for Consultant Archaeologists (2011)* and the *Draft Engaging Aboriginal Communities in Archaeology Technical Bulletin (2011)*, (hereinafter collectively, "MCM Standards 2011"), and any subsequent or updated guidelines or bulletins from MCM.
10. The Proponent agrees that all archaeological work conducted for the Project will comply with the *MCFN Standards and Guidelines for Archaeology* (published April 2, 2018), (hereinafter, "MCFN Standards") as long as the MCFN Standards do not fall below MTCS Standards 2011. The MTCS Standards 2011 will be paramount in the event of a direct conflict between MCFN Standards and the MCM Standards 2011.
11. The Proponent shall make best efforts to avoid and protect archaeological sites, artifacts, and/or features. The Parties agree that the preferred option for human remains that may be of Aboriginal ancestry is that the human remains stay where they are found with appropriate protections.

12. If archaeological resources are encountered at any time during construction or other Project-related activity, all excavation or other activity that could disturb the site shall immediately cease, and the Proponent shall immediately notify MCFN's duly appointed Archaeological Operations Supervisor or designate. The Parties shall work collaboratively to minimize impacts and ensure respectful treatment of any archaeological resources in accordance with the practices and values of MCFN as identified by MCFN.
13. If human remains are encountered at any time during construction or other Project-related activity, the following steps shall be taken:
- a. All excavation or other activity that could disturb the site shall immediately cease, and the area shall be secured in a manner which protects the site location and prevents public access and trespass; and
 - b. In addition to any notifications required under the *Funeral, Burial and Cremation Services Act, 2002*, SO 2002, C 33, the Proponent shall immediately contact MCFN's duly appointed Archaeological Operations Supervisor or designate; and
 - c. MCFN shall be permitted to conduct any ceremonies on site in relation to the human remains that may be of Aboriginal ancestry; and
 - d. MCFN shall be consulted about all steps in the investigation and any decisions or agreements to be made regarding human remains that may be of Aboriginal ancestry.
14. Nothing in this Agreement shall be interpreted or implemented so as to derogate or abrogate from any MCFN Aboriginal or Treaty right or claim, or to indicate consent to the Project.

D - Method of Payment

15. The Parties agree that the Proponent will pay the capacity funding as agreed to above by cheque or bank transfer and upon receipt of an invoice from MCFN. All invoices will be addressed directly to the Proponent, the Project will be noted in the text of each invoice, and all invoices will be prepared as per MCFN-DOCA's standard invoicing format. Invoices should be submitted electronically to the following address:

Email address: water.invoices@hamilton.ca; Florentin.Novac@hamilton.ca

Attention: Florentin Novac
City of Hamilton
905-546-2424 Ext. 2823
100 King Street West, 2nd Floor
Hamilton, Ontario L8P 1A2

16. All payment should be made to the MCFN Department of Consultation and Accommodation to the following address. For additional information, please call the office at 905-768-4260.

Email address: AccountsReceivable@mncfn.ca

Attention: Accounts Receivable

2789 Mississauga Rd.

Hagersville, Ontario

N0A 1H0

17. After thirty 30 days, a 5% monthly compounded interest rate will be charged on outstanding invoices. After six 6 months of non-payment, a 20% monthly compounded interest rate will be charged on outstanding invoices.

F – Disclaimer

18. The Parties agree that the capacity funding payments for the FLRs will be used only for the purposes described in this Agreement and will not be paid for the improper personal gain of any individual or for any other purpose that might violate any Canadian anti-corruption law.
19. This agreement may be executed in counterparts, including via electronic signature.
20. This agreement is legally binding on MCFN and the Proponent.
21. This agreement is effective as of the date of execution by the Parties. In the event Project-related activities continue beyond, April 1, 2025, the Parties agree to conclude a new agreement to address MCFN involvement in the Project after April 1, 2025.

**Archaeological Review Agreement between:
The Mississaugas of the Credit First Nation (“MCFN”)
and
City of Hamilton**

A - Background

1. The purpose of this agreement is to provide the Mississaugas of the Credit First Nation (hereinafter, “MCFN”) with capacity assistance to review reports and other materials in connection with all archaeological assessments required for the [Main & Whitney (HD17A) Water Pumping Station Municipal Class Environmental Assessment and Conceptual Design] (hereinafter, “the Project”) located at [see invitation letter for study area boundaries with no specific address], in [City of Hamilton], Ontario, owned by [City of Hamilton], (hereinafter, “the Proponent”).
2. The Proponent understands that MCFN wishes its designated representatives at the Department of Consultation and Accommodation (hereinafter, “DOCA”) to provide timely and meaningful comment on the Project via its established review process.
3. The Proponent, or their consultant(s), will therefore provide all reports in draft form to MCFN (via DOCA) for review and comment prior to their submission to other approval or regulatory authorities. The Proponent and their consultant(s) agree to provide reasonable and adequate time for DOCA to complete its review and provide comments on draft reports. DOCA requires a minimum of three weeks to complete any review of materials and provide comments on draft reports.
4. For archaeological assessments, the Proponent agrees that their consultant(s) will provide, if applicable, both the Supplementary Documentation and the Indigenous Engagement report alongside the draft archaeological report. The Indigenous Engagement report must contain the consultant’s full account of MCFN’s participation in and comments on the archaeological assessment.
5. For archaeological assessments, the Proponent agrees that no new fieldwork will commence until MCFN has completed its review and has provided comments on the previous Stage of assessment.
6. MCFN agrees that MCFN representatives will have appropriate qualifications for the work required – for example, education in environmental and/or archaeological

assessments – and experience in bridging Indigenous perspectives with Western approaches, as reasonably determined by MCFN.

B – Fees and Cost Structure

7. The Proponent will provide capacity funding for the designated DOCA staff representative in the amount of \$150.00 per hour for all activities relating to review of Project materials. An estimate of costs is provided in Schedule B.
8. If MCFN is of the view, that designated DOCA staff are unable to complete a comprehensive technical review of Project materials, the Proponent agrees to pay costs incurred by MCFN to retain an external expert in the appropriate field to be chosen at MCFN's sole discretion. The Parties agree that a review by an external expert will commence following mutual acceptance by both Parties of an estimate of work provided by the expert.

C – Additional Conditions

9. All archaeological work in connection with any Project in the Territory will be carried out in accordance with the *Ontario Heritage Act* and its Regulations. The Archaeological work will meet or exceed the Ministry of Citizenship and Multiculturalism (hereinafter, "MCM") standards and guidelines for consultant archaeologists as amended, including the *Terms and Conditions for Archaeological Licences, Standards and Guidelines for Consultant Archaeologists (2011)* and the *Draft Engaging Aboriginal Communities in Archaeology Technical Bulletin (2011)*, (hereinafter collectively, "MCM Standards 2011"), and any subsequent or updated guidelines or bulletins from MCM.
10. The Proponent agrees that all archaeological work conducted for the Project will comply with the *MCFN Standards and Guidelines for Archaeology* (published April 2, 2018), (hereinafter, "MCFN Standards") as long as the MCFN Standards do not fall below MTCS Standards 2011. The MTCS Standards 2011 will be paramount in the event of a direct conflict between MCFN Standards and the MCM Standards 2011.
11. The Proponent shall make best efforts to avoid and protect archaeological sites, artifacts, and/or features. The Parties agree that the preferred option for human remains that may be of Aboriginal ancestry is that the human remains stay where they are found with appropriate protections.

12. If archaeological resources are encountered at any time during construction or other Project-related activity, all excavation or other activity that could disturb the site shall immediately cease, and the Proponent shall immediately notify MCFN's duly appointed Archaeological Operations Supervisor or designate. The Parties shall work collaboratively to minimize impacts and ensure respectful treatment of any archaeological resources in accordance with the practices and values of MCFN as identified by MCFN.
13. If human remains are encountered at any time during construction or other Project-related activity, the following steps shall be taken:
- a. All excavation or other activity that could disturb the site shall immediately cease, and the area shall be secured in a manner which protects the site location and prevents public access and trespass; and
 - b. In addition to any notifications required under the *Funeral, Burial and Cremation Services Act, 2002*, SO 2002, C 33, the Proponent shall immediately contact MCFN's duly appointed Archaeological Operations Supervisor or designate; and
 - c. MCFN shall be permitted to conduct any ceremonies on site in relation to the human remains that may be of Aboriginal ancestry; and
 - d. MCFN shall be consulted about all steps in the investigation and any decisions or agreements to be made regarding human remains that may be of Aboriginal ancestry.
14. Nothing in this Agreement shall be interpreted or implemented so as to derogate or abrogate from any MCFN Aboriginal or Treaty right or claim, or to indicate consent to the Project.

D - Method of Payment

15. The Parties agree that the Proponent will pay the capacity funding as agreed to above by cheque or bank transfer and upon receipt of an invoice from MCFN. All invoices will be addressed directly to the Proponent, the Project will be noted in the text of each invoice, and all invoices will be prepared as per MCFN-DOCA's standard invoicing format. Invoices should be submitted electronically to the following address:

Email address: water.invoices@hamilton.ca; Florentin.Novac@hamilton.ca

Attention: Florentin Novac

City of Hamilton

905-546-2424 Ext. 2823

100 King Street West, 2nd Floor

Hamilton, Ontario L8P 1A2

16. All payment should be made to the MCFN Department of Consultation and Accommodation to the following address. For additional information, please call the office at 905-768-4260.

Email address: AccountsReceivable@mncfn.ca

Attention: Accounts Receivable

2789 Mississauga Rd.

Hagersville, Ontario

N0A 1H0

17. After thirty 30 days, a 5% monthly compounded interest rate will be charged on outstanding invoices. After six 6 months of non-payment, a 20% monthly compounded interest rate will be charged on outstanding invoices.

F – Disclaimer

18. The Parties agree that the capacity funding payments for the FLRs will be used only for the purposes described in this Agreement and will not be paid for the improper personal gain of any individual or for any other purpose that might violate any Canadian anti-corruption law.
19. This agreement may be executed in counterparts, including via electronic signature.
20. This agreement is legally binding on MCFN and the Proponent.
21. This agreement is effective as of the date of execution by the Parties. In the event Project-related activities continue beyond, April 1, 2025, the Parties agree to conclude a new agreement to address MCFN involvement in the Project after April 1, 2025.

Delivered by email and mail

**Subject: Notice of Study Area Expansion and Public Information Centre No 2
Main & Whitney (HD17A) Water Pumping Station
Municipal Class Environmental Assessment and Conceptual Design**

Dear Mr. LaForme:

The City of Hamilton is proceeding with a Municipal Class Environmental Assessment to develop and assess alternative solutions to replace the existing Main & Whitney (HD17A) Water Pumping Station (WPS) currently located at Main Street West and Whitney Avenue. This project is being carried out as a Schedule B project under the Municipal Engineers Association Municipal Class Environmental Assessment (October 2000, as amended in 2007, 2011 and 2015). We continue to welcome any interest in engagement from the Mississaugas of the Credit First Nation on this project.

The purpose of this letter is to invite the Mississaugas of the Credit First Nation to participate in Public Information Centre No. 2. This event will be held virtually on the City's webpage at: www.hamilton.ca/mainwhitneystationea and will be available from **April 28, 2023** until **May 19, 2023**. It may be important for you to know about the Study Area Expansion. Project details and a revised key map showing the study area are provided in the attached notice.

In addition, the City of Hamilton is to invite the Mississaugas of the Credit First Nation to review and comment on the Draft Stage 1 Archaeological Assessment Report (dated April 11, 2023) prepared by Archaeological Services Inc. (ASI), and was sent by email on April 12, 2023.

The City of Hamilton acknowledges that the Mississaugas of the Credit First Nation should be aware of and engaged regarding any future archaeology studies, and especially the discovery and preservation of Indigenous artifacts and sacred burial grounds. The City of Hamilton will keep the Mississaugas of the Credit First Nation informed about any future needed studies and identify opportunities for participation.

If you have any information that may assist us in the completion of this project or would like to discuss the project in any further details, please contact me by email at **Udo.Ehrenberg@hamilton.ca** or by phone at (905) 546-2424 ext. 2499.

Thank you very much.

Sincerely,

A handwritten signature in blue ink, reading "Udo Ehrenberg".

**Subject: Draft Stage 1 Archaeological Assessment Report Review
Main & Whitney (HD17A) Water Pumping Station
Municipal Class Environmental Assessment and Conceptual Design**

Dear Mr. LaForme,

The City of Hamilton is proceeding with a Municipal Class Environmental Assessment to develop and assess alternative solutions to replace the existing Main & Whitney (HD17A) Water Pumping Station (WPS) currently located at Main Street West and Whitney Avenue. This project is being carried out as a Schedule B project under the Municipal Engineers Association Municipal Class Environmental Assessment (October 2000, as amended in 2007, 2011 and 2015). We continue to welcome any interest in engagement from the Mississaugas of the Credit First Nation on this project.

The purpose of this letter is to invite the Mississaugas of the Credit First Nation to review and comment on the Draft Stage 1 Archaeological Assessment Report (dated April 11, 2023) prepared by Archaeological Services Inc (ASI), enclosed. The registered archaeological sites within or near the short-listed alternative sites have been identified. Should you charge a fee for providing this review service, please send me a letter agreement/contract that would facilitate reimbursement by the City of the costs associated with rendering such services.

The City of Hamilton acknowledges that the Mississaugas of the Credit First Nation should be aware of and engaged regarding any future archaeology studies, and especially the discovery and preservation of Indigenous artifacts and sacred burial grounds. The City of Hamilton will keep the Mississaugas of the Credit First Nation informed about any future needed studies and identify opportunities for participation.

I will take this opportunity to inform you that Public Information Centre No. 2 (PIC No. 2) is upcoming. This event will be held virtually on the City's webpage at: www.hamilton.ca/mainwhitneystationea and will be available from April 28, 2023 until May 19, 2023. The City of Hamilton will be sending another email inviting you to participate in Public Information Centre No. 2.

If you have any information that may assist us in the completion of this project or would like to discuss the project in any further details, please contact me by email at **Udo.Ehrenberg@hamilton.ca** or by phone at (905) 546-2424 ext. 2499.

Thank you very much.

Good afternoon, Peter:

Thank you for taking the time to talk to me today. As we discussed, please find attached the Notices that were sent to the Six Nations of the Grand River back in mid-April. These notices will provide information on the Study Area Expansion and PIC No. 2 and give you access, through a hyperlink to the City website, to the latest information and documents available to the Public in relation with the subject Class EA undertaking.

Please feel free to contact me if you have any questions or concerns or if you wish to discuss this project in any further detail.

Thanks again,

Subject: RE: Hamilton Main and Whitney (HD17A) WPS Class EA-Draft Stage 1 Archaeological Assessment Report

Good morning, Tanya:

Thank you very much for your prompt reply and for reviewing the Draft Stage 1 Archaeological Assessment Report for HD17A Water Pumping Station (WPS) Class EA.

Should there be any changes to the preferred and recommended site (Site 6), the City of Hamilton will notify the Six Nations of the Grand River.

The City acknowledges that the Six Nations of the Grand River should be aware of and engaged with any Stage 2 Archaeological Assessment Study/Fieldwork and/or any future archaeological studies that may be required should one of the short-listed alternative Sites 4, 9 or 12 end up being selected as the site of the new WPS.

Thank you again and best regards,

Florentin

Hello, Tanya:

Pleased find below the email I sent you about half an hour 40 minutes ago, which has the Draft Stage 1 AA Report attached. You may or may not have received this large pdf document. Just in case, I have uploaded the document on CityShare and shared the link with you (please see below).

[Stage 1 AA Report - Files - CitySHARE \(hamilton.ca\)](#)

Please try to access the Draft Report and let me know if you were successful in opening it. I apologize in advance for any potential duplication, i.e. you may receive the document and/or the link more than once. However, it is better to receive it twice rather than none!

Thank you very much,

Florentin

Hello, Tanya:

About an hour ago I have forwarded you the message that was originally sent by Udo Ehrenberg on April 12, 2023 at 11:07 AM, which has the Draft Stage 1 AA Report attached. As I have mentioned in my earlier message, the Draft Report is a rather large pdf file (16 MB) and I would like to confirm that you have received this Draft Report. Please check your Inbox and let me know if you have received it (the Draft Report it is embedded as attachment into the original Outlook email message). If not, I will attempt another submission by email next week on Monday.

Thank you very much and have a great weekend,

Florentin

Importance: High

Good afternoon, Tanya:

Thank you for taking the time to talk to me today. As we discussed, please find attached the email message that was sent to the Six Nations of the Grand River around mid-April. This email has the Draft Stage 1 Archaeological Assessment Report, which is relatively large pdf file of 16 MB, attached. Any feedback that you may have on this Draft Report, which that may assist us in successful completion of this Class EA undertaking, will be greatly appreciated.

The message trail below documents the most recent correspondence exchanged with the Six Nations of the Grand River. Please confirm the receipt of the embedded Draft Report; sometimes, due to its size,

repeat submissions may be necessary. Please feel free to contact me if you have any questions or concerns or if you wish to discuss this project in any further detail.

Thanks again,

Subject: Hamilton Main and Whitney (HD17A) WPS Class EA-Notice of Study Area Expansion and Public Information Centre No 2

Good morning:

The City of Hamilton (Hamilton Water) is proceeding with a Municipal Class Environmental Assessment (Class EA) to identify the preferred location for the replacement of the existing HD17A Water Pumping Station (WPS), currently located in Pressure District 17 (PD17) close to the intersection of Main Street West and Whitney Avenue. A Notice of Study Commencement was provided on April 28, 2022.

The purpose of this email is to invite the **Six Nations of the Grand River** to participate in Public Information Centre No. 2. This event will be held virtually on the City's webpage at: www.hamilton.ca/mainwhitneystationea and will be available from **April 28, 2023** until **May 19, 2023**. Please see details in the attached letter.

It may be important for you to know about the Study Area Expansion. Project details and a revised key map showing the study area are provided in the attached notice. I will take this opportunity to confirm that the Draft Stage 1 Archaeological Assessment Report (dated April 11, 2023) has been prepared by Archaeological Services Inc. (ASI), and sent separately by email on April 12, 2023.

If you have any information that may assist us in the completion of this project or would like to discuss the project in further detail, please contact me by email at Udo.Ehrenberg@hamilton.ca or by phone at (905) 546-2424 ext. 2499.

Thank you very much,

Udo Ehrenberg

**Subject: Notice of Study Area Expansion and Public Information Centre No 2
Main & Whitney (HD17A) Water Pumping Station
Municipal Class Environmental Assessment and Conceptual Design**

Dear Ms. Hill-Montour,

The City of Hamilton is proceeding with a Municipal Class Environmental Assessment to develop and assess alternative solutions to replace the existing Main & Whitney (HD17A) Water Pumping Station (WPS) currently located at Main Street West and Whitney Avenue. This project is being carried out as a Schedule B project under the Municipal Engineers Association Municipal Class Environmental Assessment (October 2000, as amended in 2007, 2011 and 2015). We continue to welcome any interest in engagement from the Six Nations of the Grand River on this project.

The purpose of this letter is to invite the Six Nations of the Grand River to participate in Public Information Centre No. 2. This event will be held virtually on the City's webpage at: www.hamilton.ca/mainwhitneystationea and will be available from April 28, 2023 until May 19, 2023.

It may be important for you to know about the Study Area Expansion. Project details and a revised key map showing the study area are provided in the attached notice. I will take this opportunity to confirm that the Draft Stage 1 Archaeological Assessment Report (dated April 11, 2023) has been prepared by Archaeological Services Inc. (ASI), and sent separately by email on April 12, 2023.

The City of Hamilton acknowledges that the Six Nations of the Grand River should be aware of and engaged regarding any future archaeology studies, and especially the discovery and preservation of Indigenous artifacts and sacred burial grounds. The City of Hamilton will keep the Six Nations of the Grand River informed about any future needed studies and identify opportunities for participation.

If you have any information that may assist us in the completion of this project or would like to discuss the project in any further details, please contact me by email at **Udo.Ehrenberg@hamilton.ca** or by phone at (905) 546-2424 ext. 2499.

Thank you very much.

Sincerely,

Area Expansion and Public Information Centre No 2

Main & Whitney (HD17A) Water Pumping Station Municipal Class Environmental Assessment and Conceptual Design

Notice of Study Area Expansion and Public Information Centre (PIC) No. 2

Project Overview

The City of Hamilton has initiated a Municipal Class Environmental Assessment (Class EA) study following the Schedule B process to develop and assess alternative solutions for a new Water Pumping Station (WPS) to replace the existing Main & Whitney (HD17A) WPS currently located at Main Street West & Whitney Avenue.

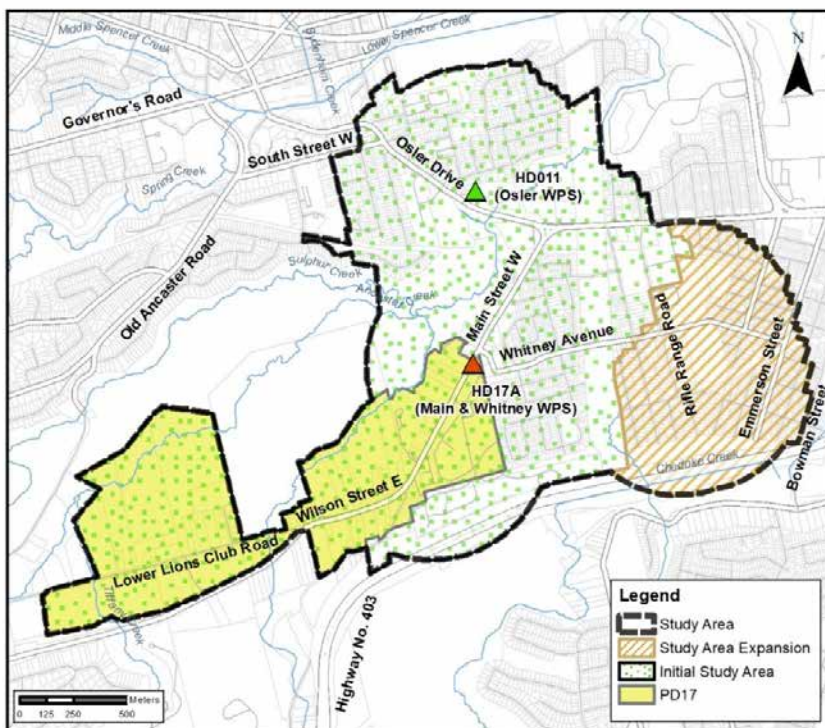

This study will define the problems/opportunities associated with the existing HD17A WPS, assess alternative solutions, and determine the preferred location for a new WPS. A conceptual design will be completed identifying the main design aspects of the preferred alternative. Once the new pumping station is commissioned, the existing HD17A WPS will be decommissioned.

The first PIC was held virtually between May 12, 2022 and June 2, 2022. The purpose of the first PIC was to present existing conditions of the study area, identify potential problems/opportunities and obtain feedback from the public to inform this Class EA study.

Additional project information is available on the City's webpage at: www.hamilton.ca/mainwhitneystationea.

Study Area Expansion

Following the first PIC, and through evaluation and screening of the potential sites, the Study Area boundary was expanded further east, as shown in the Study Area map.

Public Information Centre No. 2

The second PIC will be held virtually between April 28, 2023 and May 19, 2023. The purpose of the second PIC is to present the evaluation and ranking of short-listed alternative sites, present the recommended site for the new WPS, obtain public input on the recommended site, and outline the next steps in the Class EA process.

The Process

This project is being carried out as a Schedule B project under the *Municipal Engineers Association Municipal Class Environmental Assessment* (October 2000, as amended in 2007, 2011 and 2015).

Once this Class EA study is complete, a Project File Report (PFR) documenting the decision-making process will be made available for public review.

How to Participate

The City of Hamilton encourages the public and stakeholders to participate in this planning process. Public input and comments are encouraged throughout the Class EA process and can be directed to the project team listed below.

We invite you to participate in PIC No. 2. This event will be hosted virtually on the City's webpage at: www.hamilton.ca/mainwhitneystationea to protect the health and safety of Hamilton residents and our staff. PIC No. 2 materials will be made available virtually from **April 28, 2023** until **May 19, 2023**. Please submit your completed Comment Sheet by email or mail to the project team listed below by May 19, 2023.

Comments

We are interested in hearing any comments or concerns you may have with respect to this study. Comments received through the course of the study will be considered in selecting the preferred site. Anyone that wishes to comment on or be involved in this study should indicate their interest to:

Municipal Class Environmental Assessment and Conceptual Design**

Dear Mr. Hill,

The City of Hamilton is proceeding with a Municipal Class Environmental Assessment to develop and assess alternative solutions to replace the existing Main & Whitney (HD17A) Water Pumping Station (WPS) currently located at Main Street West and Whitney Avenue. This project is being carried out as a Schedule B project under the Municipal Engineers Association Municipal Class Environmental Assessment (October 2000, as amended in 2007, 2011 and 2015). We continue to welcome any interest in engagement from the Haudenosaunee Confederacy Chiefs Council on this project.

The purpose of this letter is to invite the Haudenosaunee Confederacy Chiefs Council to review and comment on the Draft Stage 1 Archaeological Assessment Report (dated April 11, 2023) prepared by Archaeological Services Inc (ASI), enclosed. The registered archaeological sites within or near the short-listed alternative sites have been identified. Should you charge a fee for providing this review service, please send me a letter agreement/contract that would facilitate reimbursement by the City of the costs associated with rendering such services.

The City of Hamilton acknowledges that the Haudenosaunee Confederacy Chiefs Council should be aware of and engaged regarding any future archaeology studies, and especially the discovery and preservation of Indigenous artifacts and sacred burial grounds. The City of Hamilton will keep the Haudenosaunee Confederacy Chiefs Council informed about any future needed studies and identify opportunities for participation.

I will take this opportunity to inform you that Public Information Centre No. 2 (PIC No. 2) is upcoming. This event will be held virtually on the City's webpage at: www.hamilton.ca/mainwhitneystationeaa and will be available from April 28, 2023 until May 19, 2023. The City of Hamilton will be sending another email inviting you to participate in Public Information Centre No. 2.

If you have any information that may assist us in the completion of this project or would like to discuss the project in any further details, please contact me by email at **Udo.Ehrenberg@hamilton.ca** or by phone at (905) 546-2424 ext. 2499.

Thank you very much.

Sincerely,

A handwritten signature in blue ink, appearing to read 'Udo Ehrenberg', written in a cursive style.

Main & Whitney (HD17A) Water Pumping Station Municipal Class Environmental Assessment and Conceptual Design

Notice of Study Area Expansion and Public Information Centre (PIC) No. 2

Project Overview

The City of Hamilton has initiated a Municipal Class Environmental Assessment (Class EA) study following the Schedule B process to develop and assess alternative solutions for a new Water Pumping Station (WPS) to replace the existing Main & Whitney (HD17A) WPS currently located at Main Street West & Whitney Avenue.

This study will define the problems/opportunities associated with the existing HD17A WPS, assess alternative solutions, and determine the preferred location for a new WPS. A conceptual design will be completed identifying the main design aspects of the preferred alternative. Once the new pumping station is commissioned, the existing HD17A WPS will be decommissioned.

The first PIC was held virtually between May 12, 2022 and June 2, 2022. The purpose of the first PIC was to present existing conditions of the study area, identify potential problems/opportunities and obtain feedback from the public to inform this Class EA study.

Additional project information is available on the City's webpage at: www.hamilton.ca/mainwhitneystationea.

Study Area Expansion

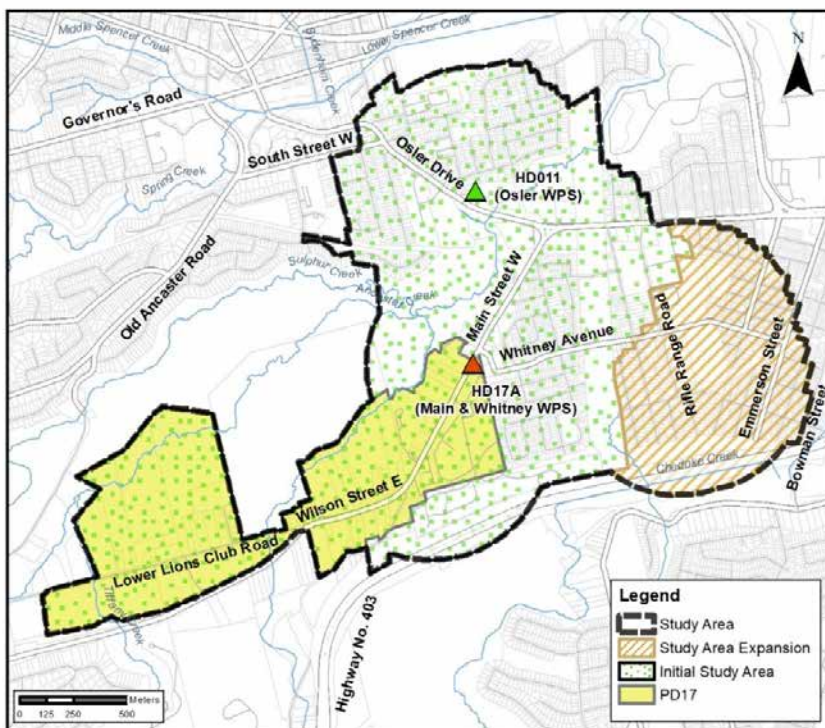

Following the first PIC, and through evaluation and screening of the potential sites, the Study Area boundary was expanded further east, as shown in the Study Area map.

Public Information Centre No. 2

The second PIC will be held virtually between April 28, 2023 and May 19, 2023. The purpose of the second PIC is to present the evaluation and ranking of short-listed alternative sites, present the recommended site for the new WPS, obtain public input on the recommended site, and outline the next steps in the Class EA process.

The Process

This project is being carried out as a Schedule B project under the *Municipal Engineers Association Municipal Class Environmental Assessment* (October 2000, as amended in 2007, 2011 and 2015).

Once this Class EA study is complete, a Project File Report (PFR) documenting the decision-making process will be made available for public review.

How to Participate

The City of Hamilton encourages the public and stakeholders to participate in this planning process. Public input and comments are encouraged throughout the Class EA process and can be directed to the project team listed below.

We invite you to participate in PIC No. 2. This event will be hosted virtually on the City's webpage at: www.hamilton.ca/mainwhitneystationea to protect the health and safety of Hamilton residents and our staff. PIC No. 2 materials will be made available virtually from **April 28, 2023** until **May 19, 2023**. Please submit your completed Comment Sheet by email or mail to the project team listed below by May 19, 2023.

Comments

We are interested in hearing any comments or concerns you may have with respect to this study. Comments received through the course of the study will be considered in selecting the preferred site. Anyone that wishes to comment on or be involved in this study should indicate their interest to:

Area Expansion and Public Information Centre No 2

Main & Whitney (HD17A) Water Pumping Station Municipal Class Environmental Assessment and Conceptual Design

Notice of Study Area Expansion and Public Information Centre (PIC) No. 2

Project Overview

The City of Hamilton has initiated a Municipal Class Environmental Assessment (Class EA) study following the Schedule B process to develop and assess alternative solutions for a new Water Pumping Station (WPS) to replace the existing Main & Whitney (HD17A) WPS currently located at Main Street West & Whitney Avenue.

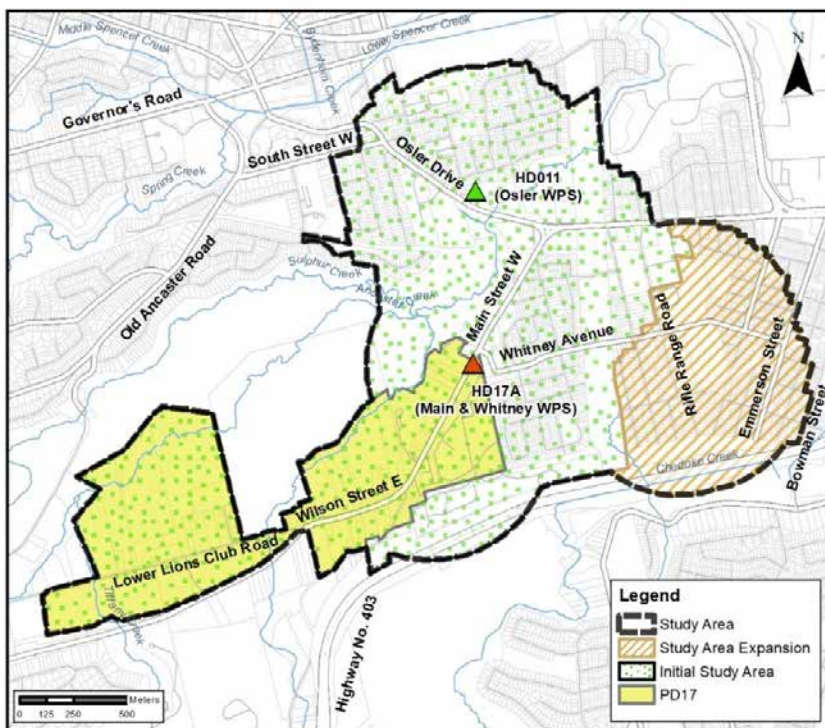

This study will define the problems/opportunities associated with the existing HD17A WPS, assess alternative solutions, and determine the preferred location for a new WPS. A conceptual design will be completed identifying the main design aspects of the preferred alternative. Once the new pumping station is commissioned, the existing HD17A WPS will be decommissioned.

The first PIC was held virtually between May 12, 2022 and June 2, 2022. The purpose of the first PIC was to present existing conditions of the study area, identify potential problems/opportunities and obtain feedback from the public to inform this Class EA study.

Additional project information is available on the City's webpage at: www.hamilton.ca/mainwhitneystationea.

Study Area Expansion

Following the first PIC, and through evaluation and screening of the potential sites, the Study Area boundary was expanded further east, as shown in the Study Area map.

Public Information Centre No. 2

The second PIC will be held virtually between April 28, 2023 and May 19, 2023. The purpose of the second PIC is to present the evaluation and ranking of short-listed alternative sites, present the recommended site for the new WPS, obtain public input on the recommended site, and outline the next steps in the Class EA process.

The Process

This project is being carried out as a Schedule B project under the *Municipal Engineers Association Municipal Class Environmental Assessment* (October 2000, as amended in 2007, 2011 and 2015).

Once this Class EA study is complete, a Project File Report (PFR) documenting the decision-making process will be made available for public review.

How to Participate

The City of Hamilton encourages the public and stakeholders to participate in this planning process. Public input and comments are encouraged throughout the Class EA process and can be directed to the project team listed below.

We invite you to participate in PIC No. 2. This event will be hosted virtually on the City's webpage at: www.hamilton.ca/mainwhitneystationea to protect the health and safety of Hamilton residents and our staff. PIC No. 2 materials will be made available virtually from **April 28, 2023** until **May 19, 2023**. Please submit your completed Comment Sheet by email or mail to the project team listed below by May 19, 2023.

**Subject: Draft Stage 1 Archaeological Assessment Report Review
Main & Whitney (HD17A) Water Pumping Station
Municipal Class Environmental Assessment and Conceptual Design**

Dear Mr. Hill,

The City of Hamilton is proceeding with a Municipal Class Environmental Assessment to develop and assess alternative solutions to replace the existing Main & Whitney (HD17A) Water Pumping Station (WPS) currently located at Main Street West and Whitney Avenue. This project is being carried out as a Schedule B project under the Municipal Engineers Association Municipal Class Environmental Assessment (October 2000, as amended in 2007, 2011 and 2015). We continue to welcome any interest in engagement from the Haudenosaunee Confederacy Chiefs Council on this project.

The purpose of this letter is to invite the Haudenosaunee Confederacy Chiefs Council to review and comment on the Draft Stage 1 Archaeological Assessment Report (dated April 11, 2023) prepared by Archaeological Services Inc (ASI), enclosed. The registered archaeological sites within or near the short-listed alternative sites have been identified. Should you charge a fee for providing this review service, please send me a letter agreement/contract that would facilitate reimbursement by the City of the costs associated with rendering such services.

The City of Hamilton acknowledges that the Haudenosaunee Confederacy Chiefs Council should be aware of and engaged regarding any future archaeology studies, and especially the discovery and preservation of Indigenous artifacts and sacred burial grounds. The City of Hamilton will keep the Haudenosaunee Confederacy Chiefs Council informed about any future needed studies and identify opportunities for participation.

I will take this opportunity to inform you that Public Information Centre No. 2 (PIC No. 2) is upcoming. This event will be held virtually on the City's webpage at: www.hamilton.ca/mainwhitneystationea and will be available from April 28, 2023 until May 19, 2023. The City of Hamilton will be sending another email inviting you to participate in Public Information Centre No. 2.

If you have any information that may assist us in the completion of this project or would like to discuss the project in any further details, please contact me by email at **Udo.Ehrenberg@hamilton.ca** or by phone at (905) 546-2424 ext. 2499.

Delivered by email and mail**

**Subject: Notice of Study Area Expansion and Public Information Centre No 2
Main & Whitney (HD17A) Water Pumping Station
Municipal Class Environmental Assessment and Conceptual Design**

Dear Mr. Williams:

The City of Hamilton is proceeding with a Municipal Class Environmental Assessment to develop and assess alternative solutions to replace the existing Main & Whitney (HD17A) Water Pumping Station (WPS) currently located at Main Street West and Whitney Avenue. This project is being carried out as a Schedule B project under the Municipal Engineers Association Municipal Class Environmental Assessment (October 2000, as amended in 2007, 2011 and 2015). We continue to welcome any interest in engagement from the Haudenosaunee Confederacy Chiefs Council on this project.

The purpose of this letter is to invite the Haudenosaunee Confederacy Chiefs Council to participate in Public Information Centre No. 2. This event will be held virtually on the City's webpage at: www.hamilton.ca/mainwhitneystationea and will be available from **April 28, 2023** until **May 19, 2023**. It may be important for you to know about the Study Area Expansion. Project details and a revised key map showing the study area are provided in the attached notice.

In addition, the City of Hamilton is to invite the Haudenosaunee Confederacy Chiefs Council to review and comment on the Draft Stage 1 Archaeological Assessment Report (dated April 11, 2023) prepared by Archaeological Services Inc. (ASI), and was sent separately by emails on April 12 and April 28, 2023. The registered archaeological sites within or near the short-listed alternative sites have been identified. Should you charge a fee for providing this review service, please send me a letter agreement/contract that would facilitate reimbursement by the City of the costs associated with rendering such services.

The City of Hamilton acknowledges that the Haudenosaunee Confederacy Chiefs Council should be aware of and engaged regarding any future archaeology studies, and especially the discovery and preservation of Indigenous artifacts and sacred burial grounds. The City of Hamilton will keep the Haudenosaunee Confederacy Chiefs

Council informed about any future needed studies and identify opportunities for participation.

If you have any information that may assist us in the completion of this project or would like to discuss the project in any further details, please contact me by email at **Udo.Ehrenberg@hamilton.ca** or by phone at (905) 546-2424 ext. 2499.

Thank you very much.

Sincerely,

A handwritten signature in blue ink, appearing to read 'Udo Ehrenberg', written in a cursive style.

Good afternoon:

The City of Hamilton (Hamilton Water) is proceeding with a Municipal Class Environmental Assessment (Class EA) to identify the preferred location for the replacement of the existing HD17A Water Pumping Station (WPS), currently located in Pressure District 17 (PD17) close to the intersection of Main Street West and Whitney Avenue.

The purpose of this email is to provide you with a formal follow-up letter (please see attached) notifying the **Haudenosaunee Confederacy Chiefs Council** of the study and Public Information Centre (PIC) No. 2, which was held virtually from **April 28, 2023** until **May 19, 2023**. The information presented at this second PIC is currently available on the City website at www.hamilton.ca/mainwhitneystationea.

If you have any information that may assist us in the completion of this project or would like to discuss the project in any further details, please contact me by email at Florentin.Novac@hamilton.ca or by phone at (905) 546-2424 ext. 2823.

Thank you very much,

**Subject: Main & Whitney (HD17A) Water Pumping Station
Municipal Class Environmental Assessment and Conceptual Design
Notice of Study Area Expansion and Public Information Centre No. 2**

Dear Mr. Hill:

The City of Hamilton is proceeding with a Municipal Class Environmental Assessment to develop and assess alternative solutions to replace the existing Main & Whitney (HD17A) Water Pumping Station (WPS) currently located at Main Street West and Whitney Avenue. This project is being carried out as a Schedule B project under the Municipal Engineers Association Municipal Class Environmental Assessment (October 2000, as amended in 2007, 2011 and 2015). We continue to welcome any interest in engagement from the Haudenosaunee Confederacy Chiefs Council on this project.

The purpose of this follow-up letter is to check whether the Haudenosaunee Confederacy Chiefs Council has any feedback/comments regarding the information presented in the Public Information Centre (PIC) No. 2, which was held virtually from April 28, 2023 to May 19, 2023. The information presented at this second PIC is currently available on the City website at www.hamilton.ca/mainwhitneystationea.

In addition, the City of Hamilton is inviting the Haudenosaunee Confederacy Chiefs Council to review and comment on the Draft Stage 1 Archaeological Assessment Report (dated April 11, 2023) prepared by Archaeological Services Inc. (ASI), which was sent via email on April 12, 2023, April 27, 2023 and/or April 28, 2023. The registered archaeological sites within or near the short-listed alternative sites have been identified. As identified in the cover letter of the Draft Report, should you charge a fee for providing this review service, please send me a letter agreement/ contract that would facilitate reimbursement by the City of the potential costs associated with rendering such services.

The City of Hamilton acknowledges that the Haudenosaunee Confederacy Chiefs Council should be aware of and engaged with any Stage 2 Archaeological Assessment Study/Fieldwork and/or any future archaeological studies that may be required, and especially the discovery and preservation of Indigenous artifacts and sacred burial grounds. The City of Hamilton will keep the Haudenosaunee Confederacy Chiefs Council informed about any future needed studies and identify opportunities for participation.

If you have any information that may assist us in the completion of this project or would like to discuss the project in any further details, please contact me by email at Florentin.Novac@hamilton.ca or by phone at (905) 546-2424 ext. 2823.

Thank you very much.

Sincerely,

Delivered by email

**Subject: Notice of Study Area Expansion and Public Information Centre No 2
Main & Whitney (HD17A) Water Pumping Station
Municipal Class Environmental Assessment and Conceptual Design**

Dear Mr. Ste-Marie and Mr. Terrier:

The City of Hamilton is proceeding with a Municipal Class Environmental Assessment to develop and assess alternative solutions to replace the existing Main & Whitney (HD17A) Water Pumping Station (WPS) currently located at Main Street West and Whitney Avenue. This project is being carried out as a Schedule B project under the Municipal Engineers Association Municipal Class Environmental Assessment (October 2000, as amended in 2007, 2011 and 2015). We continue to welcome any interest in engagement from the Huron Wendat First Nation at Wendake on this project.

The first PIC was held virtually between May 12, 2022 and June 2, 2022. The purpose of the first PIC was to present existing conditions of the study area, identify potential problems/opportunities and obtain feedback from the public to inform this Class EA study. Additional project information is available on the City's webpage at: www.hamilton.ca/mainwhitneystationea.

The purpose of this letter is to invite the Huron Wendat First Nation at Wendake to participate in Public Information Centre No. 2. This event will be held virtually on the City's webpage at: www.hamilton.ca/mainwhitneystationea and will be available from April 28, 2023 until May 19, 2023. It may be important for you to know about the Study Area Expansion. Project details and a revised key map showing the study area are provided in the attached notice.

In addition, the City of Hamilton is to invite the Huron Wendat First Nation at Wendake to review and comment on the Draft Stage 1 Archaeological Assessment Report (dated April 11, 2023) prepared by Archaeological Services Inc. (ASI), enclosed. The registered archaeological sites within or near the short-listed alternative sites have been identified. Should you charge a fee for providing this review service, please send me a letter agreement/contract that would facilitate reimbursement by the City of the costs associated with rendering such services.

The City of Hamilton acknowledges that the Huron Wendat First Nation at Wendake should be aware of and engaged regarding any future archaeology studies, and especially the discovery and preservation of Indigenous artifacts and sacred burial grounds. The City of Hamilton will keep the Huron Wendat First Nation at Wendake informed about any future needed studies and identify opportunities for participation.

If you have any information that may assist us in the completion of this project or would like to discuss the project in any further details, please contact me by email at **Udo.Ehrenberg@hamilton.ca** or by phone at (905) 546-2424 ext. 2499.

Thank you very much.

Main & Whitney (HD17A) Water Pumping Station Municipal Class Environmental Assessment and Conceptual Design

Notice of Study Area Expansion and Public Information Centre (PIC) No. 2

Project Overview

The City of Hamilton has initiated a Municipal Class Environmental Assessment (Class EA) study following the Schedule B process to develop and assess alternative solutions for a new Water Pumping Station (WPS) to replace the existing Main & Whitney (HD17A) WPS currently located at Main Street West & Whitney Avenue.

This study will define the problems/opportunities associated with the existing HD17A WPS, assess alternative solutions, and determine the preferred location for a new WPS. A conceptual design will be completed identifying the main design aspects of the preferred alternative. Once the new pumping station is commissioned, the existing HD17A WPS will be decommissioned.

The first PIC was held virtually between May 12, 2022 and June 2, 2022. The purpose of the first PIC was to present existing conditions of the study area, identify potential problems/opportunities and obtain feedback from the public to inform this Class EA study.

Additional project information is available on the City's webpage at: www.hamilton.ca/mainwhitneystationea.

Study Area Expansion

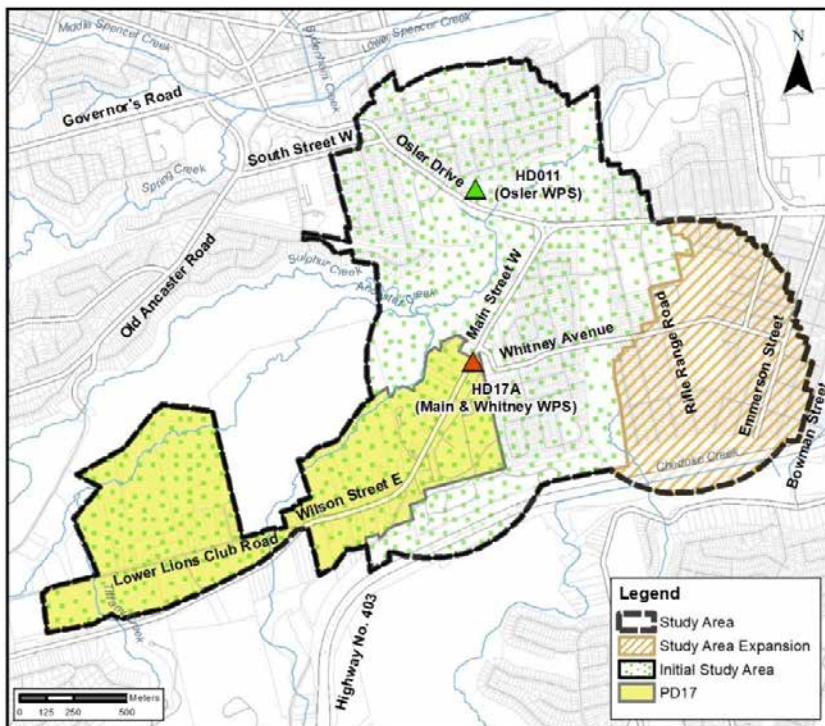

Following the first PIC, and through evaluation and screening of the potential sites, the Study Area boundary was expanded further east, as shown in the Study Area map.

Public Information Centre No. 2

The second PIC will be held virtually between April 28, 2023 and May 19, 2023. The purpose of the second PIC is to present the evaluation and ranking of short-listed alternative sites, present the recommended site for the new WPS, obtain public input on the recommended site, and outline the next steps in the Class EA process.

The Process

This project is being carried out as a Schedule B project under the *Municipal Engineers Association Municipal Class Environmental Assessment* (October 2000, as amended in 2007, 2011 and 2015).

Once this Class EA study is complete, a Project File Report (PFR) documenting the decision-making process will be made available for public review.

How to Participate

The City of Hamilton encourages the public and stakeholders to participate in this planning process. Public input and comments are encouraged throughout the Class EA process and can be directed to the project team listed below.

We invite you to participate in PIC No. 2. This event will be hosted virtually on the City's webpage at: www.hamilton.ca/mainwhitneystationea to protect the health and safety of Hamilton residents and our staff. PIC No. 2 materials will be made available virtually from **April 28, 2023** until **May 19, 2023**. Please submit your completed Comment Sheet by email or mail to the project team listed below by May 19, 2023.

Comments

We are interested in hearing any comments or concerns you may have with respect to this study. Comments received through the course of the study will be considered in selecting the preferred site. Anyone that wishes to comment on or be involved in this study should indicate their interest to:

Please see details in the attached letter.

It may be important for you to know about the Study Area Expansion. Project details and a revised key map showing the study area are provided in the attached notice.

In addition, the City of Hamilton is inviting the **Huron Wendat First Nation at Wendake** to review and comment on the Draft Stage 1 Archaeological Assessment Report (dated April 11, 2023) prepared by Archaeological Services Inc. (ASI), enclosed.

If you have any information that may assist us in the completion of this project or would like to discuss the project in further detail, please contact me by email at Udo.Ehrenberg@hamilton.ca or by phone at (905) 546-2424 ext. 2499.

Thank you very much,
Udo Ehrenberg

255 Place Chef Michel-Laveau

Wendake, QC G0A 4V0

Delivered by email

**Subject: Main & Whitney (HD17A) Water Pumping Station
Municipal Class Environmental Assessment and Conceptual Design
Notice of Study Area Expansion and Public Information Centre No. 2**

Dear Mr. Ste-Marie and Mr. Terrier:

The City of Hamilton is proceeding with a Municipal Class Environmental Assessment to develop and assess alternative solutions to replace the existing Main & Whitney (HD17A) Water Pumping Station (WPS) currently located at Main Street West and Whitney Avenue. This project is being carried out as a Schedule B project under the Municipal Engineers Association Municipal Class Environmental Assessment (October 2000, as amended in 2007, 2011 and 2015). We continue to welcome any interest in engagement from the Huron Wendat First Nation at Wendake on this project.

The first Public Information Centre (PIC) was held virtually between May 12, 2022 and June 2, 2022. The purpose of the first PIC was to present existing conditions of the study area, identify potential problems/opportunities and obtain feedback from the public to inform this Class EA study. Additional project information is available on the City website at: www.hamilton.ca/mainwhitneystationea.

The purpose of this follow-up letter is to check whether the Huron Wendat First Nation at Wendake has any feedback/comments regarding the information presented in the Public Information Centre (PIC) No. 2, which was held virtually from **April 28, 2023** to **May 19, 2023**. The information presented at this second PIC is currently available on the City website at www.hamilton.ca/mainwhitneystationea.

In addition, the City of Hamilton is inviting the Huron Wendat First Nation at Wendake to review and comment on the Draft Stage 1 Archaeological Assessment Report (dated April 11, 2023) prepared by Archaeological Services Inc. (ASI), which was sent via email on April 14 2023 and/or April 24, 2023. The registered archaeological sites within or near the short-listed alternative sites have been identified. As identified in the cover letter of the Draft Report, should you charge a fee for providing this review service, please send me a letter agreement/ contract that would facilitate reimbursement by the City of the potential costs associated with rendering such services.

The City of Hamilton acknowledges that the Huron Wendat First Nation at Wendake should be aware of and engaged with any Stage 2 Archaeological Assessment Study/Fieldwork and/or any future archaeological studies that may be required, and especially the discovery and preservation of Indigenous artifacts and sacred burial grounds. The City of Hamilton will keep the Huron Wendat First Nation at Wendake informed about any future needed studies and identify opportunities for participation.

If you have any information that may assist us in the completion of this project or would like to discuss the project in any further details, please contact me by email at Florentin.Novac@hamilton.ca or by phone at (905) 546-2424 ext. 2823.

Thank you very much.

Sincerely,

Main & Whitney (HD17A) Water Pumping Station Municipal Class Environmental Assessment and Conceptual Design

Notice of Study Area Expansion and Public Information Centre (PIC) No. 2

Project Overview

The City of Hamilton has initiated a Municipal Class Environmental Assessment (Class EA) study following the Schedule B process to develop and assess alternative solutions for a new Water Pumping Station (WPS) to replace the existing Main & Whitney (HD17A) WPS currently located at Main Street West & Whitney Avenue.

This study will define the problems/opportunities associated with the existing HD17A WPS, assess alternative solutions, and determine the preferred location for a new WPS. A conceptual design will be completed identifying the main design aspects of the preferred alternative. Once the new pumping station is commissioned, the existing HD17A WPS will be decommissioned.

The first PIC was held virtually between May 12, 2022 and June 2, 2022. The purpose of the first PIC was to present existing conditions of the study area, identify potential problems/opportunities and obtain feedback from the public to inform this Class EA study.

Additional project information is available on the City's webpage at: www.hamilton.ca/mainwhitneystationea.

Study Area Expansion

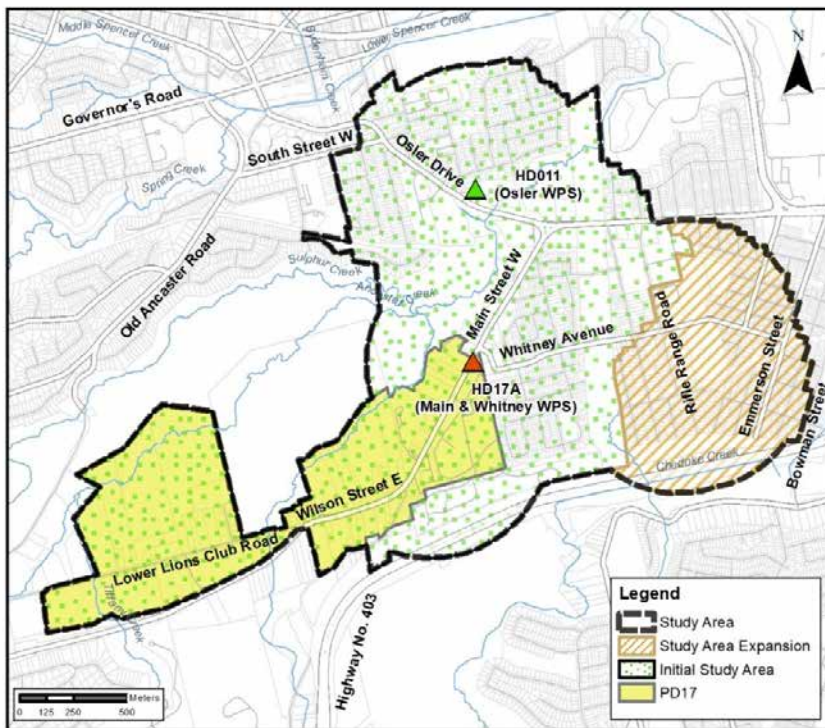

Following the first PIC, and through evaluation and screening of the potential sites, the Study Area boundary was expanded further east, as shown in the Study Area map.

Public Information Centre No. 2

The second PIC will be held virtually between April 28, 2023 and May 19, 2023. The purpose of the second PIC is to present the evaluation and ranking of short-listed alternative sites, present the recommended site for the new WPS, obtain public input on the recommended site, and outline the next steps in the Class EA process.

The Process

This project is being carried out as a Schedule B project under the *Municipal Engineers Association Municipal Class Environmental Assessment* (October 2000, as amended in 2007, 2011 and 2015).

Once this Class EA study is complete, a Project File Report (PFR) documenting the decision-making process will be made available for public review.

How to Participate

The City of Hamilton encourages the public and stakeholders to participate in this planning process. Public input and comments are encouraged throughout the Class EA process and can be directed to the project team listed below.

We invite you to participate in PIC No. 2. This event will be hosted virtually on the City's webpage at: www.hamilton.ca/mainwhitneystationea to protect the health and safety of Hamilton residents and our staff. PIC No. 2 materials will be made available virtually from **April 28, 2023** until **May 19, 2023**. Please submit your completed Comment Sheet by email or mail to the project team listed below by May 19, 2023.

Comments

We are interested in hearing any comments or concerns you may have with respect to this study. Comments received through the course of the study will be considered in selecting the preferred site. Anyone that wishes to comment on or be involved in this study should indicate their interest to:

In addition, the City of Hamilton is to invite the Metis Nation of Ontario to review and comment on the Draft Stage 1 Archaeological Assessment Report (dated April 11, 2023) prepared by Archaeological Services Inc. (ASI), and was sent separately by emails on April 14 and April 24, 2023. The registered archaeological sites within or near the short-listed alternative sites have been identified. Should you charge a fee for providing this review service, please send me a letter agreement/contract that would facilitate reimbursement by the City of the costs associated with rendering such services.

The City of Hamilton acknowledges that the Metis Nation of Ontario should be aware of and engaged regarding any future archaeology studies, and especially the discovery and preservation of Indigenous artifacts and sacred burial grounds. The City of Hamilton will keep the Metis Nation of Ontario informed about any future needed studies and identify opportunities for participation.

If you have any information that may assist us in the completion of this project or would like to discuss the project in any further details, please contact me by email at **Udo.Ehrenberg@hamilton.ca** or by phone at (905) 546-2424 ext. 2499.

Thank you very much.

Sincerely,

Udo Ehrenberg, P.Eng.
