7.3 REQUIREMENTS OF OTHER AUTHORITIES

Nothing in this By-law shall operate to relieve any person from the obligation to comply with any regulation or By-law of any other authority having competent jurisdiction. 7.5 RESTRICTIONS ON CHANGES

The purpose for which any land, building or structure is used shall not be changed, no new building or structure or addition to any building or structure shall be constructed, and no land shall be divided, if the effect of such change, construction or division contravenes any of the provisions of this By-law; however, no lot, building or structure shall be deemed to contravene any regulation of this By-law only because a part of such lot has been or is conveyed to or acquired by a government authority.

(d) Every swimming pool or hot tub shall be enclosed by a fence having a minimum height from grade of 1.5 metres (5 feet), with self-latching gates, except as an alternative for the hot tub, the entire top of the hot tub shall possess a solid top.

(e) Every swimming pool shall comply with the provisions of the Swimming Pool By-Law for the Township of Glanbrook.

7.17 **EXCEPTION TO LOT FRONTAGE AND LOT AREA REQUIREMENTS**

Notwithstanding anything contained in this By-law, a lot of record may have a lesser lot frontage and/or lot area than is required by this By-law, except in a commercial zone or industrial zone, provided that:

November 2021
(a) the lot has a minimum lot frontage on a public street of 15 metres (50 feet), and
(b) the lot has a minimum lot area of 1,390 square metres (14,965 square feet), and
(c) the lot is held under distinct and separate ownership from any adjoining lots on the
date of passing of this By-law according to the records of the Registry Office, and
(d) such lot could have been conveyed legally on the date of the passing of this By-law
by way of a deed or transfer, grant, assign, or exercise a power of appointment with
respect to land, mortgage or charge lands, or enter into an agreement of sale and
purchase of land or enter into any agreement that has the effect of granting the use of
or right in land directly or by entitleent to renewal for a period of twenty-one (21)
years or more, without consent under Section 53 of the Planning Act, being Chapter
P.13 of the Revised Statutes of Ontario, 1990, as amended from time to time,

then the said lot shall be deemed to conform to the requirements of this By-law with respect
to the lot area and/or lot frontage, and the provisions of this By-law respecting lot area and
lot frontage shall not apply to prevent the use of a permitted building or structure thereupon,
in accordance with all other provisions of this By-law and the requirements of the
Environmental Protection Act, being Chapter E.19 of the Revised Statutes of Ontario, 1990,
as amended from time to time.

7.18 **MINIMUM FRONT YARD**

The minimum front yard regulation shall be as contained in the appropriate sections of this
By-law for the Zone in which the lot is located, but the minimum front yard regulation shall
be measured from the line established by the deemed street right-of-way widths and special
setback requirements pursuant to Subsection 7.23 of this By-law or such a distance as may
be required by the Regional Municipality of Hamilton-Wentworth or the Ministry of
Transportation.

7.19 **MINIMUM LOT AREAS**

Subject to the provisions of Subsection 7.17, of this By-law, the minimum lot area shall be
as contained in the appropriate section of this By-law for the Zone in which the lot is
located or such larger area as may be required by the Region of Hamilton-Wentworth
Department of Health Services pursuant to the provisions of the Environmental Protection
Act, being Chapter E.19 of the revised Statutes of Ontario, 1990, as amended from time to time.

7.20 **THROUGH LOTS**

Where a lot which is not a corner lot abuts more than one (1) street, the front yard
regulations contained herein shall apply on each street in accordance with the provisions of

November 2021
the Zone or Zones in which such lot is located and in accordance with Subsection 7.23 of this By-law.

7.21 **SEMI-DETACHED DWELLING LOTS**

Nothing in this By-law shall prevent the subdivision of any lot on which is erected a semi-detached dwelling into two (2) parts divided in part by the centre line of the common or party wall separating the two (2) dwelling units in such dwelling.

7.22 **REQUIREMENTS FOR LOT FRONTAGE ON A PUBLIC STREET**

Except as otherwise provided in this By-law, no building or structure shall be erected on any lot unless that lot fronts on a public street. For the purpose of this By-law, a lane (either public or private), a right-of-way, an easement, or an unopened road allowance shall not be considered to be a street.

Notwithstanding the above provision, in the case of a lot of record which does not have frontage on a street because it is separated from the street by an easement, right-of-way or other land owned by a public agency which abuts the street and is parallel to it, a building or structure may be erected on such lot of record, provided that such lot has legal access to the street. In this instance, the dimension of the frontage of the lot shall be calculated as the distance of the front lot line abutting the easement, right-of-way or other land owned by the public agency.

7.23 **SPECIAL SETBACK REQUIREMENTS FROM STREETS**

For the purpose of establishing building line setbacks, or the application of any other regulations as required in various sections of this By-law, the streets listed on the pages to follow shall be deemed to have the width as shown opposite them; and where the regulations of a Zone include a minimum yard requirement, such minimum yard shall be determined by measuring at right angles from the centre line of the street abutting such yard in the direction of such lot or parcel of land a distance equal to the sum of:

(a) The said specific number of metres in the relevant regulation of the particular Zone, plus

(b) The distance in metres specified in the following charts, which are hereby declared to form a part of this By-law, as the distance from the centre line of the deemed street width.

For all other streets in the Township of Glanbrook, except the other streets within the designated Urban Industrial-Business Parks, the deemed street right-of-way widths shall be

November 2021
18 metres (59 feet) (By-law 07-112). For the other streets within the designated Urban Industrial-Business Parks, the deemed street right-of-way widths shall be 26 metres (86 feet) and the distance from the centre line of these streets shall be 13 metres (43 feet).

Adjacent to Provincial Highways, the minimum building line setback shall be 13.7 metres (45 feet), measured from the boundary of the highway (street) right-of-way, or as specifically required by the Ontario Ministry of Transportation.

Notwithstanding the provisions of this Subsection 7.23 of this By-law, variations to the above-noted figures shall be permitted where the road authority having jurisdiction establishes a specific street widening plan for a particular street or part thereof. In these instances, the setback requirement shall be determined by measuring at right angles from the centre line of the subject street abutting such yard in the direction of such lot or parcel of land a distance equal to the sum of:

(a) The said specific number of metres in the relevant regulation of the particular Zone, plus

(b) The distance in metres from the centre line of the street to the deemed street width pursuant to the approved specific street widening plan for the subject street.

(xiv) Where a landscaped area is required adjacent to a parking area, the landscaped area shall be curbed with continuous poured concrete and/or suitably barricaded where it abuts the parking area so as to prevent the use or encroachment of this landscaped area by parking or manoeuvring motor vehicles.

(xv) In all Zones, parking spaces for the physically handicapped shall be assigned to the required number of parking spaces where a minimum of ten (10)
parking spaces are required, as follows:

(A) One (1) space for each 50 required spaces up to a total of 200 required spaces, plus one (1) space for each additional 100 required spaces or part thereof.
