NOTES FOR HOLDING REMOVAL:

In order to allow for the development of the first 50 permanent mobile home sites and services, it will be necessary to first remove the Holding Provision “H8” from the lands to the south. This will accommodate the relocation of the seasonal camping sites from the subject lands to lands to the south.

10. Notwithstanding Section 12.2 and Special Exception No. 248 of this By-law, on those lands zoned Rural (A2) Zone, identified on Map 16 of Schedule “A” – Zoning Maps and described as part of 57 12th Concession Road East, the development of an additional 100 permanent mobile home sites, for a total of 150 permanent mobile home sites, shall not be permitted until such times as:

(i) Functional Servicing Report

An addendum to the Functional Servicing Report and Operations and Maintenance Manual is require which demonstrates the
following to the satisfaction of the Senior Director of Growth Management and the Director of Hamilton Water, Public Works:

a) Undertake a Hydrogeological Study for at least one (1) year, with the assistance of a Qualified Person, to characterize the following:

i) The direction of groundwater flow;

ii) The existence of both an upstream and downstream monitoring well whose location reflects the groundwater flow regime;

iii) Confirm that the downstream well is located within the effluent plume and at least 40 metres from the septic system and tile field;

iv) Confirm that the monitoring well number and the monitoring well information provided to date was sampled from the upstream and downstream monitoring wells identified in (ii) and (iii), above;

v) Determine appropriate effluent trigger limits at the monitoring wells;

vi) If recommended by the Hydrogeologist, install additional monitoring wells in order to address items (i) to (v);

b) Following the collection of at least three consecutive years of monitoring data, the Owner shall reassess the Hydrogeological Study to confirm effluent trigger limits and provide recommendations on any required infrastructure upgrades, referencing the monitoring data in conjunction with the water and waste water flow rate and occupancy records;

c) Submission of theoretical design flows for both the water and wastewater systems, based on full occupancy of the Fern Brook Development (150 permanent and 100 season sites), following MOE Design Guidelines (2008), City of Hamilton Engineering Guidelines (2006), and the Ontario Building Code;
d) Submission of historical water and wastewater flow rates which are based on Ministry of Environment Design Criteria and accompanied by occupancy records for the related time period;

e) Demonstration that the rated capacity of the Water Treatment System is capable of servicing the full Fern Brook Development (150 permanent and 100 seasonal sites), with the rated capacity being based on the largest unit for each process component out of service, and that the system is adequately designed to meet the MOE/Hamilton Fire Department fire storage and fire flow requirements;

f) Demonstration that the Sewage Treatment System will: i) function adequately for the design flows of the full Fern Brook Development (150 permanent sites and 100 seasonal sites), identifying the need for additional equipment in order to meet the rated firm capacity with the largest unit out of service; ii) operate in accordance with the associated Certificate of Approval; iii) produce an effluent, at the discharge point of the treatment system, with a nitrate concentration less than, or equal to 10 mg/L; and iv) maintain a nitrate concentration, at the property boundary downstream of the sewage treatment system, that does not exceed 2.5 mg/L.; and,

g) Revisions to the Operations and Maintenance Manuals for the water and wastewater treatment facilities which follow MOE’s prescribed format and which include a comprehensive set of operating instructions and a process narrative to explain how the facility is intended to operate in accordance with the required treatment system as determined through the ongoing engineering analysis and in consultation with the City."

12. That Schedule “E” – Temporary Use Provisions of By-law 05-200 is hereby amended by adding an additional Temporary Use Provision as follows:

“1. Notwithstanding Sections 12.1.1 and 12.2.1 of this By-law, on those lands zoned Agriculture (A1) Zone and Rural (A2) Zone, a temporary Garden Suite shall be permitted on the following Maps of Schedule “A” – Zoning Maps until their expiry date, which is also noted below:
