## **PROPOSED CANADA POST COMMUNITY MAILBOX INFORMATION**

### **Prior to construction:**

Canada Post advised that all existing single residential mailboxes currently along Waterdown Road will be removed. These affected residents along the roadway will have their mail relocated to a designated existing community mailbox as selected by Canada Post prior to construction. Note, Canada Post will be contacting the affected residents prior to this change. No set time for this contact has been identified as of now, but will be prior to construction.

### **During construction:**

No change to mail service. All residents will have access to the community mailboxes throughout the construction period.

Please see below for the proposed community mailbox for your address:
