2. Please provide your comments on any of the display boards, concept and/or presentation.

1) If statsy rock could be made bigger, that might make it more visible.
2) Trees across should be inviting enough for people to enter. I eat among the
  trees.
3) incorporate green roof on top of existing club 72 building?

Please see reverse for additional comments
John Rebecca Park  
Public Information Centre (PIC)  
05/29/2018

The park appears to have momentum again after years of stalling. Please capitalize on this and proceed with design & implementation as quickly as possible. Don't waste too much time with public consultations; we don't have

3. Do you support the implementation of the proposed John Rebecca Park plan?

- Yes, why?
- No, why not?

It is much needed green space for local residents, and will help extend the success of the west end of King William St further east.

Thank you for your participation

☐ Business Owner outside of park development area
☐ Elected Representative
☐ Member of a concerned agency
☐ Other:

2. Please provide your comments on any of the display boards, concept and/or presentation.

Surround of trees will discourage many people from entering due to safety concerns

New design lacks encouragement of motion throughout the park space for individual groups seems lacking. Focus all towards centre while blocking view from streets by complete surround of trees

Please see reverse for additional comments
3. Do you support the implementation of the proposed John Rebecca Park plan?
   - ☐ Yes, why?
   - ☐ No, why not?

   Of a J R Park plan, not necessarily this new plan.

Thank you for your participation

☐ Member of a concerned agency
☐ Business Owner within the park development area
☐ Other: __________________________ (Please Specify)
☐ Business Owner outside of park development area

2. Please provide your comments on any of the display boards, concept and/or presentation.

Things we need for the park to work:
- protected crosswalks on the intersection
- integrate sidewalks into the park so there are no dead trees
- permeable materials for all hard surfac areas
- ballrooms & fountains

Please see reverse for additional comments
3. Do you support the implementation of the proposed John Rebecca Park plan?

☑ Yes, why?
☐ No, why not?

With modifications from previous question

Thank you for your participation
Comments and information regarding this proposal are being collected to assist the City of Hamilton in determining the final park development plan. 2. Please provide your comments on any of the display boards, concept and/or presentation.

Great first go - needs revisions + a second draft

1) More open space for people to sit as opposed to all the trees

2) Keep it open to Rebecca + new form development

3) More open space for safety & visibility

Please see reverse for additional comments
3. Do you support the implementation of the proposed John Rebecca Park plan?
   
   ☐ Yes, why?
   ☐ No, why not?

   Yes, with tweaks and concerns as raised by residents.

Thank you for your participation

2. Please provide your comments on any of the display boards, concept and/or presentation.

The ice rink needs to be large - the lawn and patio area included. The rink can become patio in summer. If the rink is its present proposed small size it will fail miserably. People travel to large downtown rinks, they will not for this small rink. If the park fails in the winter, it will fail to be a proper year-round destination.

Please see reverse for additional comments
Park fails to allow for diagonal foot traffic patterns.

3. Do you support the implementation of the proposed John Rebecca Park plan?
   - [ ] Yes, why?
   - [ ] No, why not?

Thank you for your participation

2. Please provide your comments on any of the display boards, concept and/or presentation.

   - Could we have fully natural materials/paths?
   - More features for children?
   - Need a solution for Club 77
   - Support the ideas for memorials for murdered men
   - Washrooms & at least one water fountain (drinking)

Please see reverse for additional comments
3. Do you support the implementation of the proposed John Rebecca Park plan?

☐ Yes, why?

☐ No, why not?

I support as long as key recommendations from community are taken into consideration.

Thank you for your participation

2. Please provide your comments on any of the display boards, concept and/or presentation.

Support lots of trees + shade -

Concern - Presence of 77 Club - not suitable for the park
Noise + Violence Problem must be dealt with - Will disturb using the park.
City needs to enforce noise by-law if Club 77 continues.

Please see reverse for additional comments.
Presentation Comments

- Emphasis on trees, shade, beauty - Fantastic!
- Happy to have soil amidst the concrete of downtown.
- Love the lawn, pergola (vines), and sprays path, etc.

Will the park be manned to control fights, loud people noise, drinking, etc.

* must be careful about noise coming from performances.

3. Do you support the implementation of the proposed John Rebecca Park plan?

☐ Yes, why?
☐ No, why not?

Suggestion - Park paths could be like cobblestone but very flat + stable. + Flower Beds.

We purchased a condo in the Filmore Lofts in 2000 because of the "promised" park. We could not live with the high music noise from 77 so sold + moved to the back of the building because we like the location. The Condo Building has no outdoor space (balconies or patios). We desperately need some outdoor space. Brantley downtown needs more parks with trees + shade + benches. See comment below:

Thank you for your participation

NB: Biggest concern is noise from the Park.

Comment: Please NO Bandshell! We will hear the performances in our home across the street at King William Catherine & we have already put up with band noise for 7 years!

☐ Other: ________________________________ (Please Specify)
☐ Business Owner outside of park development area

2. Please provide your comments on any of the display boards, concept and/or presentation.

Ice Park is excellent concept

Bunches for people to eat very important

Overall design of park I consider is excellent - incorporates large trees and recreation areas

Existing building remains a concern, can't see much historical significance associated. Presently it is badly disfigured by graffiti.

Please see reverse for additional comments
3. Do you support the implementation of the proposed John Rebecca Park plan?

☐ Yes, why?
☐ No, why not?

Urban parks enhance attractiveness of a city.
Traffic and parking should be integrated with this development.

Thank you for your participation

2. Please provide your comments on any of the display boards, concept and/or presentation.

- Really want to see trees lining the street between vehicle traffic and pedestrian traffic.
- It would be nice to have access to the ground under the tree groves, sitting/picnic/etc. Not blocked by barriers.
- Walls around the groves.

Please see reverse for additional comments
It's hard to get a sense of scale from the display but I feel like the lawn/square isn't large enough for potential programming. Potentially giving it slightly larger footprint.

3. Do you support the implementation of the proposed John Rebecca Park plan?
   - Yes, why?
   - No, why not?

This park will be a very good addition to the downtown.

Thank you for your participation

   Free placements look like they will make great homeless encampments
   This should go to a Design Competition

Please see reverse for additional comments
3. Do you support the implementation of the proposed John Rebecca Park plan?

☐ Yes, why?
☐ No, why not?

design does not account for future developments
like Prins said "introverted"!
Tree placements!!
would prefer a park, not an urban plaza

Thank you for your participation

☐ Business Owner within the park development area
☐ Business Owner outside of park development area
☐ Elected Representative
☐ Member of a concerned agency
☐ Other: (Please Specify)

2. Please provide your comments on any of the display boards, concept and/or presentation.

Instead of building a rain-admitting pergola, it would be better to build a re-attched and restyled gazebo-type building like the one @ King Street East @ Ferguson Avenue (north of Shakespeare's in the International Village) with gate dare as a rain and thunderstorm day shelter and marketplace. Also: Fine Misty sprinklers as used in the Southern US & A (and Springdale Restaurant near Recreation Center) would be refreshing in June, July, August with the global warming climate change.

Please see reverse for additional comments
3. Do you support the implementation of the proposed John Rebecca Park plan?

☐ Yes, why?

☐ No, why not?

Mostly yes, but change the pergola into a gazebo as on page 1. Add fire misting coolers as on page 1. Maybe add a smaller version of the George R. Robinson Gaze Park Bandshell on the lawn facing towards the ice-rink, splash-spray park and seating. Flip the sides of the grassy open area to the east, and put the splash-spray pad and seating on the west.

Thank you for your participation

2. Please provide your comments on any of the display boards, concept and/or presentation.

As you are aware, or doubt, central to planning the park itself is an understanding of what is surrounding the park. What is it that will draw people through the park?

Please see reverse for additional comments
I am saddened by the news that Urban Earl will be leaving.

3. Do you support the implementation of the proposed John Rebecca Park plan?
   - Yes, why?
   - No, why not?

The park's design is lovely, but parks do not succeed or fail on the basis of grass or trees, but according to how they are used by people. I remain concerned about what will draw people to and through the area, based on its surrounding enterprises. Without strong incentives to visit the area other than in addition to the park, I would be inclined to hold off on the park.

Thank you for your participation

2. Please provide your comments on any of the display boards, concept and/or presentation.

   - Permeable pavers should be used
   - Consider an "Eco Lawn" seed blend
   - Diverse tree species
   - Consider seasonal shade perennials under tree areas, perhaps hosta, choral bells, ferns.
   - Club 77? Phase 2?

I love the idea of the splash pad and skating rink. I think the splash pad area could be a little more bigger for the kids to run around.

Please see reverse for additional comments
3. Do you support the implementation of the proposed John Rebecca Park plan?

☐ Yes, why?
☐ No, why not?

I need something more downtown for parents to go with their children.

The central plaza is a promising public space with a couple of issues; the pergola is in the middle, encumbering the space. Also the park is designed to be separate from the adjacent streets - it should be more connected. The design of the wover-5ff, the park, and the senseng development should be carefully co-ordinated. Please see reverse for additional comments.
This is a remarkable opportunity to create an important public space. It is not just another park. More thought and design is needed.

3. Do you support the implementation of the proposed John Rebecca Park plan?

☐ Yes, why?
☐ No, why not?

See above.

Thank you for your participation

I found the older concept more successful. Even though both concepts display similar features of an ice skating rink/splash pad, water feature, public art and trees, the arrangement of the elements in the newer concept is unsuccessful for a few reasons outlined below:

1. The overall design is very rigid and traditional and doesn't speak to the progressive nature of our downtown and the innovation we wish to attract.
2. The heavily forested corners are security issue completely sealing off sight lines.
3. There is very little room to lounge or hang out, especially in the shade. There is a small turf patch where only a few groups can gather. The majority of the real estate is taken up for the dense forest of trees.
4. The layout of the trees is uninviting to sit in their shade.
5. The trellis is also very rigid and is not in the most inviting location to sit in its shade.
6. The water feature along the north western corner is a very sad departure from the more prominent and animated water feature in the previous design.
the older concept plan was more successful for the following reasons:
1. more open and dynamic design, modern, youthful, accessible, and progressive. forward thinking and looks at contemporary park designs and looks to the future rather than the past.
2. plenty of space for different kind of lounging: sitting on benches, bringing blankets to sit under tress, sitting in the shade, sitting in the sun, lounging near the water feature or under the trellis, lounging near the art, or walking skating and playing in the splash pad/ skating rink.
3. open sight lines to the street for security and to create interest.

3. Do you support the implementation of the proposed John Rebecca Park plan?

☐ Yes, why?
☒ No, why not?

I would be very upset if the park moves forward as proposed in the new concept. It would not be a place I would want to hang out in.
I would definitely consider it a failure, and it would be a lost opportunity to create something meaningful. It would be sad to not see a more dynamic design for a park along King William as a contract to the more traditionally axial design of Gore Park.
We only get one shot at this, so let’s do it right.
Please please please let’s do it right, let’s have a public space all stakeholders can be truly proud of rather than quickly rushing a unexciting design through.
These sentiments have been loudly expressed by the BNA in the public meeting. Please take these seriously and into consideration.
I love the neighbourhood I live in, and would hate to see the potential of this park go to waste.

   I liked the presentation and I like the tree groves for shade & cooling, noise barrier from the street, and love the idea of water, ice, lighting, grass & games playing as ideas for the park center. I don't think the rink should have

Please see reverse for additional comments
Refrigeration under it like the bayfront Pier 4 sink, otherwise the ice would be usable in the uncertain climate of future winters.

3. Do you support the implementation of the proposed John Rebecca Park plan?

☐ Yes, why?
☐ No, why not?

As more people move downtown this will become a popular respite from the commercial paid cafe type spaces and from the heat of concrete & asphalt & noise. As a resident I look forward to this very much. My 8 year old said he can hardly believe the city would invest this beautifully in downtown! I hope you show him the dream will come true for his future.

Thank you for your participation
