## AINSLIE WOOD NEIGHBOURHOOD TRAFFIC MANAGEMENT REVIEW AND WESTDALE NEIGHBOURHOOD TRAFFIC MANAGEMENT REVIEW MUNICIPAL CLASS ENVIRONMENTAL ASSESSMENTS

The City of Hamilton (City) has completed two Neighbourhood Traffic Management Review studies to identify and recommend potential transportation-related improvements for two neighbourhoods, Ainslie Wood and Westdale (See figures below). When implemented, these improvements will benefit all road-users and better reflect the Complete-Livable-Better Streets concept of design outlined in the 2018 Hamilton Transportation Master Plan.

## The Environmental Assessment Process

The studies were completed in accordance with the Municipal Class Environmental Assessment (Class EA) Master Plan process, addressing Phases 1 and 2. Consultation with stakeholders (public and agencies) is a key component of the Class EA process and input was sought from various parties throughout the study. Two Public Information Centres were held for each study (Ainslie Wood: June 19, 2018 and May 21, 2019 / Westdale: June 21, 2018 and May 13, 2019).

## Project File Reports for Public Review

Two separate Project File Reports have been prepared, which detail the planning and design process, how public and agency input was addressed, the preferred alternative solutions and next steps towards project implementation. The reports will be available for public review for a 30-day review period, from February 14, 2020 to March 14, 2020 at the following locations:
