- Have you travelled outside of Canada in the past 14 days and been advised to quarantine?
- Has a doctor, health care provider, or public health unit told you that you should currently be isolating (staying at home)?
- In the last 10 days, have you been identified as a "close contact" of someone who currently has COVID-19? (If public health advised that you do not need to isolate, answer no.)
- In the last 10 days, have you tested positive on a rapid antigen test or home-based self-testing kit? (If you have since tested negative on a PCR test, answer no.)
- Have you received a COVID Alert exposure notification on your cell phone in the last 10 days? (If you have since tested negative on a PCR test, answer no.)
- In the last 14 days, has someone you live with either travelled outside of Canada and been asked to quarantine OR in the last 10 days been identified as a 'close contact' and been advised to self-isolate?
- Is anyone you live with currently experiencing any new COVID-19 symptoms &/or waiting for test results after experiencing symptoms?

If you answered YES to any of these questions, go home & self-isolate. Call Telehealth or your health care provider to find out if you need a test.

If you answered NO to all of these questions, you can enter the location.

The above questions are used to screen for COVID-19 before entry, as per direction from the Medical Officer of Health. Anyone who is sick or has any symptoms should stay home and follow up with their health care provider if needed.
