Introduction and Overview

Registered early childhood educators (RECEs) and other child care program staff play a key role during the critical years of a child's development. In 2022, the Ontario government has made an ongoing funding commitment to support a wage enhancement for eligible child care professionals working in licensed child care settings and Provincial Wage Enhancement will continue to be funded for 2022.

Purpose of this initiative is to:

- Close the wage gap between RECE wages in the education sector and licensed child care sectors;
- Stabilize licensed child care agencies by helping them retain RECEs/child care staff;
- Support greater employment and income security; and
- Support higher quality consistent child care services to support children's learning and development.

These 2022 Provincial Wage Enhancement (WEG) Guidelines for licensed child care centres in Hamilton, provides information about the implementation, eligibility, distribution and reporting on the WEG funding, as established by the Ontario Ministry of Education.

IMPORTANT NOTE:

- All eligible child care operators must sign and submit a 2022 Schedule "D".
- WEG funding cannot be used to meet minimum wage requirements.
- The WEG supports an increase of up to \$2 per hour, plus 17.5 per cent benefits for eligible program staff in a licensed child care centre.
- WEG funding can only be distributed to eligible staff working in eligible positions.
- Child care operators shall not spend this funding on any other child care programs expenses, child care centre expansion or to reduce fees.
- The wage cap for 2022 established by the Ministry is **\$28.59** per hour. The wage cap aligns with the existing school board Educator Salary Matrix for RECEs working in the Kindergarten program.
- **Some exceptions to position eligibility have been made due to COVID-19:**
 - Existing staff working in previously eligible positions who have been assigned to perform other duties associated with the enhanced health and safety protocols (e.g. cleaning, running, screening) will continue to receive WEG payments.
 - New staff hired to perform non-program functions associated with the enhanced health and safety protocols (e.g. cleaners, screeners) are not permitted to receive WEG payments unless they meet the eligibility requirements.

Section 1: Conditions and eligibility for application

Operators that have outstanding actions regarding prior years Provincial Wage Enhancement (WEG) Funding may not be eligible to receive funding in 2022.

Eligibility for Wage Enhancement funding:

To be eligible to receive 2022 Wage Enhancement funding **the Centre** must:

- Be a licensed child care centre operating in the City of Hamilton,
- Have eligible staff positions

Full Wage Enhancement Grant

To be eligible to receive the full WEG funding of \$2 per hour plus 17.5 per cent in benefits, **child care program staff** must:

- Be employed in a licensed child care agency and receive a T4;
- Have an associated base wage excluding prior year's wage enhancement of \$26.58 or less per hour (i.e. \$2 or more below the wage cap of \$28.59); and
- Be in a position categorized as a child care supervisor, RECE, or can otherwise be counted toward adult to child ratios under the Child Care and Early Years Act (CCEYA).
- Supplementary program staff positions that are in place to maintain lower adult-child ratios than required under the CCEYA are also eligible for Wage Enhancement, and as long as those hours have not been included in the regular position being filled)

Partial Wage Enhancement

Where an eligible **child care program staff** has an associated base wage excluding prior year's wage enhancement between \$26.58 and \$28.58 per hour, the position is eligible for a partial wage enhancement. The partial wage enhancement will increase the wage of the qualifying position to \$28.58 per hour without exceeding the cap.

Approved funding amounts are based on eligible positions and not individuals, therefore WEG funds are to be distributed to **all eligible staff that receive T4**, in all eligible positions for all hours worked in 2022.

Non-Program staff (such as: administrator, custodial staff, cook) are eligible for a partial wage enhancement on a prorated basis if staff spends at least 25% of the time in a child care staff position to support Child Care and Early Years Act (CCEYA) ratio requirements.

INELIGIBLE Positions: Resource teachers/consultants/ special needs resource positions or supplemental staff employed to support children with special needs and staff hired through a third party (i.e. temp agency, independent or self-employed contract staff)

Section 2: Application Process

- Operators must submit the Wage Enhancement application by the due date.
- Funding approvals are based on the 2022 application.

Section 3: Determination of Centre funding

The Wage Enhancement funding is calculated based on the hours worked in the previous year for each eligible position. Hours for vacation, sick time or public holidays are not included on the application.

Wage Enhancement (WEG) Salary:

The salary portion is calculated based on the information provided on the application.

Wage Enhancement (WEG) Benefits:

The benefit entitlement of 17.5% benefits is included for all operators. Once all statutory benefit requirements are met [Canada Pension Plan (CPP), Employment Insurance (EI), Workers Safety Insurance Board (WSIB), Employer Health Tax (EHT), two weeks' Vacation Pay and nine public holidays], any remaining funding within the 17.5% can be used to:

- Fund other benefit expenses paid by the employer on behalf of the employee; and
- Support wage enhancement salaries - there is funding flexibility from the benefit component to the salary component. Operators may use any remaining benefits funding for salaries; however, the flexibility is one way: salary funding cannot be used for benefits.)

Please note: if your program provides benefits at a higher rate than 17.5%, the supplemental grant may be used for the additional benefits cost

Supplemental Grant:

The ministry has provided an additional supplemental grant of \$150 for each eligible home visitor FTE and \$50 for each eligible home child care provider.

Section 4: Grant Distribution

Agencies shall not spend this funding on any other program expenses, expansion or to reduce fees.

Agencies should have a policy and procedure available for their staff that outlines how the funding is distributed to eligible positions/providers.

Payment must include all hours worked retroactive from January 1, 2022.

Agencies must distribute funds to all eligible staff in all eligible positions included in the application, for all hours worked in 2022.

Agencies are to include a WEG payment on each paycheque rather than as a lump sum.

The salary component paid per staff **cannot exceed \$2.00 per hour.**

Payment for eligible positions is to be paid out to the individuals currently working in these positions based on their actual hours worked in 2022.

Operator must ensure that salary, benefits, supplemental grant and administration funding are used as follows:

Salary Component:

- Operators must provide the WEG Funding to eligible staff as of January 1, 2022 in addition to their existing compensation, planned raises, pay equity payments and any other funding sources.
- The funding is above the Provincially-legislated minimum wage
- The salary component paid to individual staff will not exceed \$2 per hour
- For full WEG entitlement, eligible staff with a base wage of \$26.58 or less must receive \$2 per hour
- For partial WEG entitlement, eligible staff with a base wage between \$26.59 and \$28.58 must be paid at the amount that brings the wage up to \$28.58
- Funds are to be assigned to eligible positions and not individuals.
- The portion of funding provided through the Wage Enhancement Grant must clearly be communicated to staff and labelled on pay cheques as “Prov WEG”
- No more than 17.5% of the salary expenditure is allocated toward benefits. However, if there is a surplus in benefit funding, this may be allocated to salaries, but **a surplus in salary funding may not be used for benefits**. Supplemental grant may be used to support deficiency in this category
- Staff must be made aware in advance that there is a possibility that the WEG funding received may run out before year end and if this is the case, payouts to staff may need to stop before the end of December 2022.
- There is flexibility to use the Supplemental Grant toward new eligible positions in 2022.
- The final 2022 wage enhancement payment must be issued for each eligible position/staff in the payroll that covers December 31, 2022 (no carry over of funds into 2022 is permitted).
- Operators are required to track individual employee’s funding entitlements to ensure distribution is paid out according to the Ministry guidelines or until funding is exhausted.
- All unassigned funds must be reported and returned to City of Hamilton.

Benefits Component:

Provincial Wage Enhancement is considered income and therefore all statutory deductions apply. The Ministry of Education is funding 17.5% for mandatory benefits as follows:

Employer Contributions: this portion covers the operator's costs, it is not to be distributed as a payment to staff:

- CPP (Canada Pension Plan), funded at 5.70% for the employer contribution.
- EI (Employment Insurance), funded at 2.21% for the employer contribution.
- WSIB (Workers Safety & Insurance Board), funded at 1.10%.
- EHT (Employer Health Tax), if applicable, funded at variable rate based on agency's total remuneration. Certain employers are exempt.

Benefits payable to individuals in eligible approved positions: This portion of benefit funding is payable to staff.

- Vacation pay – funded at 4% as per Employment Standard Act. Employees could have higher vacation pay than 4%
- Public Holiday Pay – funded at 3.59% for 9 stat days (New Year's Day, Family Day, Good Friday, Victoria Day, Canada Day, Labour Day, Thanksgiving Day, Christmas and Boxing Day). If the operator pays for Easter Monday and Civic Holiday those two days increase the percentage for Public Holiday pay to 4.39%

Once the above statutory benefit requirements are met, any remaining funding within the 17.5% can be used to:

- Fund other benefit expenses paid by the employer on behalf of the employee; and
- Support wage enhancement salaries - there is funding flexibility from the benefit component to the salary component in 2022. Operators may use any remaining benefits funding for salaries; however the flexibility is one way: salary funding cannot be used for benefits.)

Supplemental Grant:

The Ministry is providing a supplemental grant of \$150/funded FTE which provides operators with flexibility for the following:

- The grant can be used to fund additional eligible staff and/or hours in program, vacation days, sick days, training and/or other benefits.
- The supplemental grant must be used to support staff, home visitors and providers' hourly/daily wage or benefits and provides operators with the flexibility to cover salary shortfalls due to increased hours or staffing, and additional benefits (e.g. additional time in program, new staff or providers, vacation days, sick days or PD days and/or other benefits) once mandatory benefits are covered.
- The supplemental grant **cannot be used** for any other operational expenses, lowering or offset parent fees or to meet minimum wage requirement.

Administration Funding:

- The administration funding entitlement for each agency is determined based on the available funding and is calculated based on the total FTE. This funding must only be used for the administration of the WEG/HCCCEG funding.

Recovery/Variance:

- All unspent funding must be reported on the Reconciliation form
- Any funding that is not used according to these guidelines will be recovered

Closure of a Child Care Program:

If a centre receiving WEG closes or is planning to sell, City of Hamilton Child Care System Support must be notified immediately.

If a program closes in 2022, the eligible staff would receive wage enhancement funding for the hours worked until the program closure. The grant for the remaining year must be returned along with a reconciliation form.

Section 5: Monitoring and Reporting:

All operators that receive WEG funding are required to submit the reconciliation form provided by the City of Hamilton. Instructions and the form will be available prior to the submission deadline.

The City of Hamilton has the right to request additional information from the operator to support the information reported on the application and reconciliation forms.

Operators are required to keep all records for a minimum of 7 years. Records include information that verifies the amount of WEG distributed to eligible staff. These records must be available upon City of Hamilton request and can include:

- Supporting documents (receipts, invoices, paystubs, etc.) confirming amount of administration funding expensed.
- Records documenting payments made to staff (current and past)
- Staff payroll records including T4s and T4As
- Record of completion recovery payment (if applicable)

Compliance review of submitted forms according to Ministry and City of Hamilton distribution guidelines:

City of Hamilton may conduct an on-site compliance audit. This will involve a visit to the centre to review the required records. Operators must ensure that all required documents and access to additional financial and staff records are available during the visit as indicated on the communication about the visit.

Section 6: Inquiries

Information related to eligibility, application and distribution are available in the Guidelines and Frequently Asked Questions sections.

Any questions or concerns about the funding can be directed to the Child Care Systems Support Team at 905-546-2424 ext. 5126 or by email ccss@hamilton.ca
