

SAFE RETURN TO CAMP KIDACA

The City of Hamilton welcomes participants back to Camp Kidaca. The measures below will be in place at all Camp Kidaca Locations to ensure the safe return of participants and staff.

PPE

- **Masks required** in all indoor and outdoor spaces (not required in the pool)
- Customer service **will be provided virtually, over the phone or in an area where staff and patron can physically distance**
- Faceshields and masks will be worn by staff when physical distancing cannot be maintained
- Additional PPE and protocols during first aid administration

Physical Distancing

- **Camp locations have been selected** based on an ability to play outdoors and with indoor spaces that allow for cohorting
- **Programs planned will encourage physical distancing** and where it cannot be maintained (safety, first aid, personal care), appropriate PPE will be worn
- **Campers will be divided into cohorts** with assigned washrooms and spaces. Shared spaces will be cleaned between groups.
- **Registration will occur in two week blocks** to minimize close contacts for staff and campers. Waitlisted participants must begin at the start of the program.
- **Activities will be modified** to avoid cross-over of cohorts and encourage physical distancing

Stop the Spread

- **Sanitizer will be easily accessible** within program spaces and frequent time and reminders for handwashing will be provided
- Participants encouraged to **bring their own food, water bottles and masks**
- **Campers will have minimal cross-over** with members of the public
- **Parents/guardians** will not be permitted to access the program space

Health Screening

- **Health screening signage** at the entrance of all facilities
- **Pre-attendance health screening** guidelines for participants. **Health screening** at camper drop-off and ongoing health screening throughout the camp day
- **All employees** complete health screening prior to entering the workplace

Cleaning

- **Employee training** on the proper use of disinfectant products and enhanced cleaning schedules
- **Enhanced disinfecting of common areas** and high touch points
- **Enhanced disinfecting of program spaces and equipment** between users

Communications

- **Contact tracing for all** program participants and visitors
- **Positive case notification** process will be communicated to parents/guardians
- **Participant behaviour expectations and modified rules** will be communicated through websites and information emailed to parents/guardians.
- **Detailed camp or support person safety plan** is available upon request
