Between April 15 and May 5, 2021, the City offered a survey to the public to provide their feedback into the upcoming playground replacement at Dofasco Property Park (274b Beach Road). The survey provided images of various playground components, which were grouped into their respective categories, allowing respondents to select their top 2 choices. Additionally, written responses were received, containing feedback and information regarding the demographics of survey respondents, which will be considered in both the Dofasco Property Park playground design and for continuous improvement of our playground replacement projects throughout the City.

City staff are currently in the process of completing the new playground design and will be incorporating the feedback received from the survey. The design is expected to be finalized in 2021 and will be shared on the project website www.hamilton.ca/playyourway once available. We encourage you to check back regularly to stay up-to-date on important project updates.

Here are the top choices for each category of the survey for the new Dofasco Property Park playground:

**Activity Panels Options:**

First Choice: Music Panels  
Second Choice: Educational Panels

Final equipment selection and installation may vary from what is shown here. Community feedback will help to guide the design of the future play structure, and include elements similar to the examples shown in the survey.

If you have any questions, please contact City of Hamilton Parks staff at: playyourway@hamilton.ca
