If the City plans for more intensification and higher density development within our existing neighbourhoods in the urban area, it will reduce the amount of new greenfield lands outside of the existing urban boundary needed to 2051.

WHAT IS “GREENFIELD LAND”? Greenfield land is currently undeveloped land at the edge of the City. It is currently a mix of farmland and rural lands.

WHAT DOES DENSITY OF DEVELOPMENT MEAN? It is the number of units that can be built on a hectare of land. For example, tall towers would be considered an example of “high density” while single detached homes would be considered “low density”. There are also many forms of medium density housing, such as townhouses and low-rise apartments.

WHAT DOES INTENSIFICATION MEAN? Intensification is the development of new residential units in the City’s existing developed area.

HOW SHOULD HAMILTON GROW TO 2051? Please fill out this survey and return the postage-paid form by July 23, 2021.
**HOW CAN THE CITY GROW?** There are 2 key choices the City must make:

1. How much of the population and housing growth should be planned for within the city’s existing urban boundary through intensification and redevelopment in existing neighbourhoods and communities?

2. How much of the population and housing growth should be planned in new greenfield neighbourhoods and communities located beyond our current urban boundary? The addition of new greenfield lands to the urban area is called urban boundary expansion.

**WE WANT TO HEAR FROM YOU!**

The survey options below allow you to choose between options which consider different intensification and density targets, which changes the required urban boundary expansion area.

**WHICH OPTION DO YOU PREFER?**

<table>
<thead>
<tr>
<th>OPTION 1. “AMBITIOUS DENSITY” SCENARIO</th>
<th>OPTION 2. “NO URBAN BOUNDARY EXPANSION” SCENARIO</th>
<th>OPTION 3. OTHER SUGGESTIONS?</th>
</tr>
</thead>
<tbody>
<tr>
<td>Plan for 81,520 new housing units through development in the existing urban area, for an average intensification rate of 60% between 2021 and 2051.</td>
<td>Plan for 110,180 new housing units through development in the existing urban area, for an average intensification rate of 81% between 2021 and 2051.</td>
<td>Do you have other suggestions?</td>
</tr>
<tr>
<td>Plan for 28,660 new housing units through development of new greenfield lands beyond our current urban boundary.</td>
<td>Plan for 0 new housing units through development of new greenfield lands beyond our current urban boundary.</td>
<td>A different intensification rate, higher or lower density?</td>
</tr>
<tr>
<td>Result: Urban Expansion Land Need 1,340 ha (3,300 ac)</td>
<td>Result: Urban Expansion Land Need 0 ha</td>
<td>Please tell us your ideas on the attached survey card or email us at <a href="mailto:grids2-mcr@hamilton.ca">grids2-mcr@hamilton.ca</a>.</td>
</tr>

Postal Code: ________________

Please circle your preferred Urban Growth Option choice.

**OPTION 1. “AMBITIOUS DENSITY” SCENARIO**

Urban Expansion Land Need 1,340 ha (3,300 ac)

**OPTION 2. “NO URBAN BOUNDARY EXPANSION” SCENARIO**

Urban Expansion Land Need 0 ha

**OPTION 3. OTHER SUGGESTIONS?**
