

Appendix "A" Display Fireworks / Pyrotechnic / Open Flame FX Site Plan Requirements

Hamilton Fire Department requires a detailed and comprehensive site plan to be included with all Submissions for any SPFX / Fireworks Information Packages.

The following is a list of information that is required to be included on Site Plans that are submitted as part of an Information Package:

- Address of site
- Name of facility/site
- Location and direction of firing areas
- All relevant distances (clearance to spectators, roadways, buildings, fall out zones)
- **Note:** adequate clearances and fallout zones (as applicable) shall be indicated to allow for adjustments for wind speed and direction on the day of the display
- Prevailing wind direction
- Adjacent buildings, structures
- Ground cover (trees, field, paved area, etc.)
- Access roads
- Position of ramps and mortars
- Parking areas
- Location of emergency vehicles
- North arrow
- Staff or Spectator viewing areas
