Notable Building Features: Plain brick parapet with a decorative brick frieze with corbelled dentils, segmentally-arched openings with brick voussoirs, covered front porch supported by Ionic columns atop brick piers with balcony above, two residential entrances with transoms above

Foundation:
Construction Material: Brick

Cladding:
Roof Type: Flat

Roof Material:

Context Type: Streetscape; Neighbourhood
Context Name: Murray Street East; Beasley

Landscape Features:

Historical Associations:
35 MURRAY ST E

Heritage Date: c. 1920

Classification: Character-Supporting Resource

Architectural Style / Influence: Vernacular; Edwardian Classicism

No. of Storeys: 2.5

Notable Building Features: Brick construction, front gable roof (formerly hipped), oriel window in 2nd storey, covered front porch, segmentally-arched openings with brick voussoirs, shed-roof bay window on west side

Foundation: Concrete (Block)

Construction Material: Brick

Cladding: Siding (in gable)

Roof Type: Gable (Front)

Roof Material: Asphalt

Context Type: Streetscape; Neighbourhood; Corner

Context Name: Murray Street East; Beasley

Landscape Features: Perimeter hedging along curved front lawn boundary

Historical Associations:
43 MURRAY ST E

Heritage Date: c. 1887

Classification: Character-Supporting Resource

Architectural Style / Influence: Vernacular; Italianate

No. of Storeys: 2

Notable Building Features: Flanking brick parapets (flashed), ornate brackets below eaves, 3-bay front facade, segmentally-arched window openings with brick voussoirs and stone lug sills, covered porch with hip roof and brick columns, wooden railing

Foundation:

Construction Material: Brick (painted)

Cladding: 2

Roof Type: Gable (Side)

Roof Material: Asphalt

Context Type: Semi-detached (related); Streetscape; Neighbourhood

Context Name: Murray Street East; Beasley

Landscape Features: Detached 1-storey garage with hip roof, brick facade laid in Common bond, plain lintel above garage opening

Historical Associations:
45 MURRAY ST E

Heritage Date: c. 1887

Classification: Character-Supporting Resource

Architectural Style / Influence: Vernacular; Italianate

No. of Storeys: 2

Notable Building Features: Flanking brick parapets, ornate brackets below eaves, 3-bay front facade, segmentally-arched window openings with brick voussoirs and stone lug sills, covered porch with shed roof supported by brick columns

Foundation:

Construction Material: Brick (painted)
