**Proposed Use, Description of Project and Brief description of adjacent uses:** [e.g. Office, Residential]:

- **Proposed Use:** Multi-Unit Residential.

- **Description of Project:**

  This project proposes a complete renewal of an existing multi-unit residential building circa 1920, located within the Stinson Established Historic Neighbourhood.

  According to Fire Insurance Mapping, the building was originally constructed as a two-storey brick dwelling around the turn of the century and was modified in the 1920s into a three-storey multi-residential dwelling known as the “Briertan Apartments”.

  This project proposes to demolish an existing dilapidated one-storey garage facing the alleyway and existing wood fire escapes on north and south sides of the building. A 1-storey addition will be constructed at approximate the same location of the garage. A 3-storey addition will be constructed at the front of the building, bringing the new façade closer to the street and in conformance with the maximum front setback bylaw. A total of 14 modern dwelling units will be created and they range from 520 sf to 880 sf.

- **Adjacent Uses:**

  The subject property is located on a streetscape comprised of a cluster of brick two to three-storey multi-residential dwellings, including apartment walk-ups and semi-detached dwellings, constructed between the late-19th century and early-20th century.

  Adjacent property to the south is 38 West Ave S., a 3-storey multi-residential building current being renovated by the same owner.

  Adjacent proper to the north is the 3-storey multi-residential building owned and operated by the Sacajawea Non-profit Housing.
