6. **Increased Infrastructure Funding**
   Modernizing public transit in Hamilton and positioning our City to better support long-term growth and development will remain a core local priority requiring significant investments for years to come.

The on-going pressures due to the pandemic were at the forefront and an integral part of all the City’s conversations with representatives from the provincial government. Currently, senior levels of government have not made any financial commitments beyond 2022 to fund ongoing recovery efforts for municipalities related to COVID-19.

The City will continue to actively pursue and advocate for funding from senior levels of government for ongoing recovery efforts for municipalities related to COVID-19 to ensure much needed investments are secured for residents in the city of Hamilton.
